FAIRBANKS AUCTION - SPRING 2015.

Saturday, April 11, 2015.

Marriott Springhill Suites: Meeting rooms in the Main Lobby

Auction at 7:00 P.M. and Lot Viewing at 6:00 P.M.

Welcome to our **69th Fairbanks auction!** We like unusual coins and items, and this auction has many lots that fit that description. Highlights include: a rare, high grade 1896 Japan One Yen; an 1844 Seated Liberty Dime; a Proof 1881 Seated Liberty Half Dollar; a 1795 Flowing Hair Dollar; an 1878 Judd-1555 Pattern Dollar; a 1928 PCGS-64 Peace Dollar; and an 1874-CC Double Eagle.

The estimated values listed after the lots in this auction are based primarily on two sources; Coin World's Coin Values, the Coin Dealer Newsletter (Graysheet) and PCGS/NGC websites. Coin pricing is difficult and several sources should always be used for valuation. Prices realized are automatically sent to all mail bidders. If you would like to receive a copy but do not care to participate in the auction, please send \$1 along with a self-addressed, stamped envelope.

TERMS: There are no reserve bids in this auction. All lots are sold as-is. Unlike many auctions, there is no buyer's charge. There can be no returns after the auction is completed except in the case of mail bidders who do not have the opportunity to inspect the lots. All coins are guaranteed genuine. Lots can be picked up after the auction and payment must be with cash or personal check by prior approval. Lots may also be picked up the following week at our store.

Mail bidders should call or write their bids indicating the lot number and the maximum bid they wish to pay. Bids may also be submitted by E-mail to akcoins@mosquitonet.com. Your lots will be purchased for less if possible, and in no case will the maximum be exceeded. Your bids will be called from the book as if you were at the auction in person. Coins will be sent immediately upon receipt of payment and postage will be added to the invoice. If any lots are unsatisfactory, they must be returned within 7 days of receipt. Mail bidders are expected to honor their bids and pay promptly so that consignors do not have to wait for payment.

Lots will be on display in our store from Saturday April 4th to Friday April 10th.

- 3 **Byzantium AE (bronze) Follis**, Justinian I, the Great, 527-565 AD. Good VF, Sear 201, 41mm. A very large and impressive coin with a nice brown planchet. Helmeted and cuirassed facing bust holding globus cruciger and shield. An impressive Byzantine coin that has the identification and original sales slip (\$225) attached. 200.00+
- 4 **Australia Proof Set**, 1975. In its original plastic case, this contains the 1 cent through the 50 cents. A very attractive “animal” set. A very attractive historic set in the original case. 68.00

A great start to a collection with several of the minting qualities. Housed in Dansco albums. A total of 110 coins. 600.00+
- 8 **German Gold One Mark**, 2001-G, Proof. Five different German mints issued gold One Mark coins (this one is from Karlsruhe) to celebrate the retirement of the Mark. The Euro replaced the Mark in 2002, a change many Germans now question. These list in the newest Standard Catalogue of World Coins at \$750 and contain .3833 troy ounces of gold. 700.00-750.00
- 9 **Great Britain Proof Set**, 1937. A gorgeous (15) piece set including the silver Maundy coinage. 26,402 sets were issued in black velvet leather cases with satin liner. The toning is incredible, especially on the large silver crown. 550.00
- 10 **India Gold Sovereign**, 1918-I, BU. This is the only year sovereigns were minted in India. .2354 troy oz. 400.00+
- 11 **Japan Silver One Yen**, 1896, **PCGS MS-63+**. We had two of these originally and offered the first one in our Fall 2013 auction. A silver dollar sized coin with an intricate dragon design. Very attractive with a natural gray patina over lustrous surfaces. Very scarce in better mint state grades. 700.00
- 12 **Jordan Silver Proof Coins**, 1969. This is a wonderful set of three coins: ½, ¾ and 1 Dinar, all struck in 1000/1000 (that is pure!) silver. The coins are housed in their original plastic wallet, which is showing some wear, splitting at one hinge. The ½ Dinar features the Al Harraneh Palace, the ¾ Dinar the Shrine of the Nativity in Bethlehem, and the 1 Dinar has Temple Hill in Jerusalem. King Hussein is on the obverse of all three coins. The 1 Dinar is a massive 55mm, containing over 1.25 oz. of silver. The total silver content of all three coins is 2.8721 oz. Obviously, these coins were never meant to circulate. These were among the first “non-circulating legal tender” coins to be mass marketed to collectors. Issued at \$36, these now catalogue for \$250. 200.00+
- 13 **Netherlands Gold 10 Gulden**, 1927, MS-63, fully lustrous. Wilhemina I is depicted on the obverse. The S.C. of World Coins lists an MS-63 at \$400. The coin contains .1947 troy ounces of gold. 260.00+
- 14 **Papua New Guinea**, 1975, BU Coins, all graded by **NGC** as MS-68 or MS-69. Included are 1, 2, 5, 10 and 20 Toea, and 1 and 5 Kina, housed in two NGC holders. The popular 1 Kina features a center hole with two crocodiles encircling it. The other coins are all attractive, featuring native animals. A total of 7 coins. MS-63s catalogue for about \$25, so let’s say double that for these grades. 50.00+

ESTIMATE

- 15 **Peru Gold Libra**, 1916, MS-63. At .2355 troy ounces of gold , these were competitors to the British Sovereign and were used as trade coinage. 375.00-400.00
- 16 **Russia Gold 5 Roubles**, 1897, Ch. XF-45. Nicholas II is on the obverse, the last Russian Czar. A neat piece of history before the Bolshevik revolution. Contains .1244 troy ounces of gold. 225.00-250.00
- 17 **Soviet Union Proof Olympic Coin Set**, 1980. A complete silver set containing (14) 5 Roubles and (14) 10 Roubles containing a total of 20.23 troy ounces of silver. They are housed in a rich red velvet case with white satin liner. Some of the plastic capsules have deteriorated, but all of the coins are as issued. Historically an interesting set because of the boycott of the games. Catalogue value is \$840. 500.00+
- 18 **World War II medals**. The first is from Ireland. Ireland was neutral during WWII, and this medal is the Emergency Service Medal for Defense Forces. It is missing its loop, which would attach it to a ribbon. Very nice, modern design - woman with sword and Irish wolfhound. The second is from the Soviet Union with a portrait of Stalin commemorating victory in WWII. Still has its loop, but missing the ribbon. Both are bronze, just smaller than a silver dollar. 50.00

HALF CENTS

- 19 **Draped Bust Half Cent**, 1804, plain 4, no stems, **PCGS** XF-40. A pleasing coin with natural surfaces. The reverse die is rotated about 5 degrees. A great certified example for a type set and a popular year for variety collectors. 485.00
- 20 **Classic Head Half Cent**, 1835, C-1, **NGC** XF-40BN. The final year for business strikes of this type. Ironically, just like the preceding lot, the reverse die is rotated about 5 degrees. 125.00

CENTS

- 21 **Draped Bust Large Cent**, 1798, style 2 hair, **PCGS** VG-10. Natural uniform brown planchet with good detail for the grade. A very pleasing example of an early type cent. 250.00+
- 22 **Draped Bust Large Cents**, 1798 and 1803. The 1798 has rough surfaces and grades AG, while the 1803 is G+ but has some serious marks on the face. Two pieces. 125.00
- 23 **Classic Head Large Cent**, 1808, S-277. Good, nice brown planchet. This type was only minted from 1808 to 1814 and are hard to find problem free. 100.00
- 24 **Large Cent Lot**. Most AG and some with problems. Includes: scarce 1821, 1824, 1826, 1833 and 1834. Five pieces. 95.00
- 25 **Braided Hair Large Cent**, 1846, small date, N-4, **PCGS** XF-40. A relatively inexpensive coin that we have held a long time because of the fascinating die variety. The date is boldly repunched on all four digits -visually creating a mess when looked at under 16x. These are coins that make numismatics fun! 150.00+
- 26 **Braided Hair Large Cent**, 1849. A very nice XF example. 85.00
- 27 **Flying Eagle Cent**, 1857, Fine. 50.00
- 28 **Flying Eagle Cent**, 1857, **PCGS** AU details, cleaned. Excellent detail, the cleaning being very subtle. A popular and very short lived series. 150.00
- 29 **Indian Cent**, 1866, VG. 65.00
- 30 **Indian Cents**, 1873, 1874 and 1876. Good (marks), VG and AG/G respectively. Better dates, 3 pieces. 60.00
- 31 **Indian Cents**, 1905 and 1906. Both are nice AU/BU examples. Two pieces. 50.00
- 32 **1909 Cents**. The 1909 **Indian** is actually a better date and this is a nice AU example. The 1909 **VDB Lincoln** appears to be a nice MS-63 or so with faded mint red. A nice high grade pair representing this transition year. Two pieces. 60.00
- 33 **Lincoln Cent**, 1909-S, VG. 90.00
- 34 **Lincoln Cent**, 1911-S, Fine. 54.00
- 35 **Lincoln Cent**, 1913-S, **PCGS** MS-63RB. An attractive well struck example with mint red turning to a deep purple. A difficult date this nice. 325.00
- 36 **Lincoln Cent**, 1914-D, **ANACS** Fine-12 details, corroded. A nice brown color, but the fields are lightly granular. The wheat ears are full and separated. An extremely popular Lincoln Cent. 185.00

LINCOLN CENTS, CONT.

ESTIMATE

37	Lincoln Cents , 1915-S, 1915-D and 1916-S. VG+ (unusual toning); XF but the surfaces are slightly granular; and about XF, respectively. 3 pieces.	45.00
38	Lincoln Cents , 1922-D and 1924-D. G/VG and VG respectively. A pair of semi-key dates. 2 pieces.	69.00
39	Lincoln Cents , 1930, 1930-D and 1930-S. MS-63+ Red, MS-63RB and MS-63 Red respectively. 3 pcs.	49.00
40	Proof Lincoln Cent , 1939, PCGS Proof-65RD . A gorgeous coin that appears undergraded. The “mint red” is actually a deep orange and is unblemished by any spotting. PCGS currently lists this at...	170.00
41	Proof Lincoln Cent , 1951, Proof-65 or better. A superior example of this early proof with full mint red.	65.00
42	Doubled Die Lincoln Cent , 1983, NGC MS-64RB . Our favorite doubled die variety - every letter on the reverse is boldly doubled. Usually the doubling is only apparent on certain areas but not on this one. This is a pretty coin with subtle orange/purple overtones.	250.00
43	Lincoln Cent Collection . Housed in two Littleton archival quality albums with slip cases. This collection runs from 1909 to 2009. The first album covers 1909-1958 and consists of (110) coins. The key coins are not included. Highlights are: 1910-S VF; 1911-D G; 1912-S F; 1913-S VG/F; 1914-S F; 1915-S VF; and many others. The set is complete from 1936 to 1958 with many BU. A much better than average collection and we would encourage bidders to take a look. The second set from 1959 to 2009 is a complete BU set including proofs - very pretty (167 coins). 277 coins total.	330.00
44	Lincoln Cent Lot . All of these are AU/BU with most red and brown. Includes: (6) 1930-S, (7) 1935-S, 1937-S, (2) 1939-S, (5) 1940-S, 1943-S, (6) 1944-S, 1946-S, (2) 1947-S and (2) 1949-S. 33 pcs.	125.00
45	Lincoln Cent Errors . Harken back to the good ole days when you used to search pocket change for rare coins. Here are over 100 Lincoln Cents, described by the previous owner as “errors.” We would say that over 80% are, and the rest are the product of an over-active imagination. They range from 1953 to 1998. A few later cents caught our eye: 1990-D extra hair- when compared to another 1990-D, Lincoln’s beard does look more defined; 1986-D low mint mark - we mean really low!; and 1982 “gas bubbles” - a really bad job of copper-plated zinc. It looks like the coin has the pox. A fun lot, grading from F to BU. 100+ pieces.	20.00+

THREE CENTS & HALF DIMES

46	Three Cent Silver , 1851, Ch. VF to XF, natural gray surfaces. The only detail worth mentioning is a rim mark at 3:00 obverse. This is a pleasing example of the first year of type.	70.00
47	Three Cent Nickels , 1872 and 1874. Both are VG to Fine.	46.00
48	Three Cent Nickel , 1879, PCGS Proof-65 , CAC stickered. 3,200 proofs were minted this year. This is a pretty coin with a semi-cameo look and well struck on the numerals as a proof should be.	625.00
49	No Stars Half Dime , 1837, NGC AU-55 , small date variety. A very popular 1½ year type coin and the starless fields give it a medallic look. The coin has light gray uniform toning.	535.00

NICKELS

50	Shield Nickel , 1867 with rays, Choice AU with lots of original luster, but there are some marks on the reverse which limit the value. Still, a nice example of the first variety.	125.00-160.00
51	Shield Nickel , 1870, Fine to VF. Mintages started to drop this year, a somewhat better date.	60.00
52	Shield Nickel , 1882, PCGS Proof-65 . Mostly untoned with good strike definition. A high grade example that would make a great addition to a type set. PCGS lists these at \$675.	675.00
53	1883 Liberty Nickels , “no cents” and “with cents,” Ch. VF and VF respectively. Pleasing examples of the two types from this first year of issue. The “with cent” Nickel has a small rim mark at 9:30 obv. Two pieces.	66.00
54	Liberty Nickel , 1886, AG. A key date in this series. Obverse details are strong for the grade with a full date. No problems other than lots of wear.	150.00-200.00
55	1913 Buffalo Nickels . The Type I is VF/XF. The Type II is Ch. AU-55, nicely toned in gold/blue, possibly cleaned in the past, but we cannot tell for sure (no hairlines). Two better grade examples.	43.00
56	Buffalo Nickel , 1913-D Type II, Good. A key date in the series.	115.00
57	Buffalo Nickels , 1916, 1916-D, 1916-S. Ch. VF, Fine and Fine respectively. Three pieces.	62.00

BUFFALO & JEFFERSON NICKELS

ESTIMATE

- 58 **Buffalo Nickel**, 1916-S, **PCGS MS-62**. A scarce date in mint state, especially upper grades where the price quickly escalates. Well struck with a fully rounded horn. 225.00
- 59 **Buffalo Nickel Lot**. Includes: 1917-S AG; (2) 1919 one G, the other a nice Fine; 1924-D Good marks; (3) 1925 AG/G; (2) 1931-S Fine; 1934-D VF/XF; plus (3) others. Also included are (21) 1939 **Jefferson Nickels** mostly VG to XF. 33 pieces. 75.00
- 60 **Buffalo Nickel**, 1924-D, **PCGS XF-40**. There is still lots of subdued luster on this key date. 225.00
- 61 **Buffalo Nickel**, 1926-D, **PCGS Ch. AU-55**. A difficult date that is often weakly struck. Lustrous with some toning on both sides. The horn is full but not fully rounded. 300.00
- 62 **Buffalo Nickels**, 1931-S. (3) pieces grading Good, Fine and XF but with some obverse scratches. 3 pcs. 50.00
- 63 **Doubled Die Buffalo Nickel**, 1935, Fine+, FS-801. The reverse die is doubled, most noticeable on "FIVE." These are very pricey in upper grades (XF examples being \$350). Quite rare. 100.00
- 64 **Buffalo Nickels**, 1937 and 1937-D. Both are MS-65 or better with immaculate surfaces. The 1937-D has light gold toning. Two pieces. 118.00
- 65 **Restored Date Buffalos**. When we were kids, and Buffalo Nickels were still in circulation, many had circulated for so long the dates were gone. "Nic-a-Date" was a mild acid that ate deeper into the area surrounding the date than the date itself, leaving the date barely visible. Ah, the good old days of searching pocket change. We purchased a collection recently, and many of the dateless Buffalos had been "restored." Now, most of these were common dates, but a few were far from common. We are offering the following dates, with the Graysheet Good-Ask price in () following the date: 1913-S type I (\$37); (2) 1913-D type II (\$105 each); 1914-D (\$77); 1914-S (\$21); 1916-D (\$14); and 1921-S (\$50). In Good, these would be worth over \$400! We have noticed that some have started selling these on eBay, but have not researched it. These can be yours if you are the high bidder. 7 coins. 20.00+
- 66 **Jefferson Nickel**, 1939-S, Reverse of 1938, MS-63, lustrous. The Redbook ignores this variety for some reason, but it is listed in Breen and Coin World. The type is identifiable by the top step of Montecello - it is thin as opposed to the modified die with a thick step. Also included in this lot is a beautifully toned 1950-D key date nickel grading MS-63+. Two pieces. 40.00
- 67 **Proof Type II Jefferson Nickel**, 1942-P, **PCGS Proof-67**. An untoned very high grade of the only proof silver issue in the series, and important as such. Incredibly, PCGS lists a Proof-68 at \$8,000 so the "67" grade becomes very attractive. 350.00
- 68 **BU Silver War Nickel Roll**, 1943-S. It is always fun to see these early BU rolls especially from the war years. This appears to be an original roll put away years ago. Most are brilliant, but some sport natural toning. 40 pieces. 300.00-400.00

EARLY DIMES

- 69 **Capped Bust Dime**, 1827, **ANACS XF-40**, peripheral toning. A scarce type coin in higher grades. 450.00
 - 70 **Capped Bust Dimes**, 1828 and 1834. The 1828 is the scarce curl base 2 variety grading AG. The 1834 is only Poor to AG with a strong date. Two pieces. 70.00
 - 71 **Capped Bust Dime**, 1832, **ANACS AU** details, scratched. This is a very natural coin with original luster still present. There is one old scratch present on the obverse in the field by Liberty's chin. It is very hard to see with the naked eye. A short lived series that only ran from 1829 to 1837. 350.00-400.00
- *****
- 72 **Seated Liberty Dime**, 1844, **PCGS XF-40**, medium Gray/blue toning. With a mintage of only 72,500 this is a key date in the series. The eye appeal is quite superb and we believe the coin is undergraded by at least half a grade. A great opportunity to pick up a neat numismatic rarity. 1,150.00+
- *****
- 73 **Seated Liberty Dime**, 1857, Ch. XF-45. A very nice example with good detail and natural surfaces. 60.00+
 - 74 **Barber Dime**, 1902, Ch. AU-55, light gold at the edges. 70.00
 - 75 **Barber Dimes**, 1916 and 1916-S. VF (scratch on neck) and Ch. XF/AU with luster and some scattered marks, respectively. Two pieces. 50.00

MERCURY & ROOSEVELT DIMES

ESTIMATE

- 76 **Mercury Dime**, 1924-D, PCGS Ch. XF-45. 85.00
- 77 **Mercury Dimes**, 1926-S and 1929. The scarce 1926-S is Good, while the 1929 is a lustrous MS-63. 2 pcs. 45.00
- 78 **1944 PDS Mercury Dime Set**, MS-64 to MS-65 and lustrous. The 1944-D has full split bands. 3 pcs. 54.00
- 79 **High Grade, Late Date Mercury Dimes**. Most grade AU, a few being XF. Includes: 1936-S, (3) 1939, (2) 1939-D, (2) 1939-S, (2) 1940, 1940-S, (2) 1941, 1941-S and (26) more from 1942 to 1945. 40 pieces. 150.00-200.00
- 80 **Proof Roosevelt Dimes**, 1950. One is Proof-63, the other Proof-64/65. With a mintage of only 51,386, this is the scarcest dime in the series. The 1950 proof coinage did not exhibit the deep mirror fields of other years. Both of these are attractive and fully brilliant. Two pieces. 90.00
- 81 **Roosevelt Dime Set**. A beautiful BU set from 1946 to 1964 (all the silver issues). The set is housed in a Dansco Album and apparently was put together many years ago because many coins exhibit gorgeous toning. A clad BU 1965 dime is also included. 49 pieces. 215.00

- 82 **Proof Roosevelt Dime**, 1970 "No S," PCGS Proof-68CAM. These contemporary rarities continue to climb in value year after year. Surprisingly, the mint made this error four different times (1968, 1970, 1975 and 1983). Extremely rare and PCGS currently list this at \$1,300. 1,300.00

TWENTY CENT PIECES

- 83 **Twenty Cent Piece**, 1875-CC, NGC VG-8. Very attractive 2-tone gray with the devices lighter than the fields. With the 1876-CC being unaffordable to us mere mortals, this is the only Carson City Twenty Cent date one can buy. 440.00
- 84 **Twenty Cent Piece**, 1875-S, ANACS Ch. XF-45. We love this short lived series and always seem to have one or two in our auctions. The 1875-S is the most common and affordable date. Light gray, some toning at the edges. 300.00

QUARTERS

- 85 **Draped Bust Quarter**, 1806, ANACS Fine-12. Attractive natural 2-toned gray. Early Bust type material is always sought after, and the minor denominations do not appear nearly as often as the Bust Halves. This is a great example we cannot fault and is a great opportunity to pick up a very short lived type coin. 1,000.00+

- 86 **Seated Liberty Quarter**, 1853 Arrows and Rays, XF/AU with attractive surfaces, but we do note some faint hairlines in the field from a prior cleaning. A one year only type coin with the rays removed the next year. 160.00
- 87 **Seated Liberty Quarters**, 1876 and 1876-CC. A trio of centennial quarters with two from Philadelphia grading AG/G and VG with numerous marks that damage the surface. The CC example is AG. 3 pcs. 60.00
- 88 **Barber Quarters**, 1899-S, 1901 and 1905-S. AG/G, G and G/VG respectively. All of these are scarcer dates in the series. Three pieces. 82.00
- 89 **Standing Liberty Quarter**, 1917 Type I, NGC Ch. XF-45. The Type I quarters are very popular because the myriad of changes made for the Type II took away much of the artistic beauty of MacNeil's quarter. For the most part, Type I quarters were also better struck than their successors. 130.00
- 90 **Standing Liberty Quarter**, 1917-D Type II. AU/BU with full luster and good head detail. We do note some very light hairlines at the bottom of the obverse from a light cleaning. 225.00
- 91 **Standing Liberty Quarters**, 1920-S and 1923. Both grade Fine with typical weak dates. Two pieces. 65.00

QUARTERS, CONT.

ESTIMATE

- 92 **Standing Liberty Quarter**, 1923, **PCGS** Genuine. We submitted this coin expecting to see a graded mint state returned, but instead they said it had been cleaned. We just do not see it! Beautiful natural mint frost and the look of at least an MS-63. 110.00-130.00
- 93 **Standing Liberty Quarter**, 1925, **PCGS** MS-63. Very clean fields and we wonder a bit why the grade has been held back. The coin has uniform gold/gray light toning over lustrous fields. 250.00
- 94 **Standing Liberty Quarter**, 1927-S, VG. A very nice example of the key date, with a strong, full date. 50.00
- 95 **Washington Quarter**, 1935-D, **PCGS** MS-64. Very lustrous with just a touch of light toning developing. This is a tougher date in mint state. 370.00
- 96 **Proof Washington Quarter**, 1938, **PCGS** Proof-64, untoned. Only 8,045 proofs were struck. 180.00
- 97 **1943 Washington Quarters**. 1943 MS-64/65 brilliant; 1943-D MS-63 with full luster; and 1943-S Ch. AU, lustrous. Three pieces. 65.00
- 98 **Proof Washington Quarter**, 1950, Proof-64/65. A beautiful coin with a light cameo contrast. Proof issues were suspended in 1942 during the war and were not resumed until 1950. 50.00+
- 99 **BU Silver Quarter Roll**, 1963-D. Some exhibit light gold toning and grade on average MS-63. 40 pcs. 190.00

EARLY HALF DOLLARS

- 100 **Bust Half Dollar**, 1810, **NGC** XF-40, O-101. A very appealing example of this early date with faded luster still apparent. A neat die break that goes through the date up to the first star. Striking weakness on the left wing, but the motto is full. 435.00
- 101 **Bust Half Dollar**, 1826, **PCGS** Ch. XF-45, O-117. Pleasing with a nice strike. Currently listed by **PCGS** at \$275. 250.00-275.00
- 102 **Bust Half Dollar**, 1827, square base 2. A nice Fine with pleasing surfaces, darker fields and lighter devices. 85.00
- 103 **Bust Half Dollars**, 1833 and 1834. AG/G and VF cleaned respectively. It is neat to see a well worn specimen from time to time since most are higher grades. Two pieces. 130.00
- 104 **Bust Half Dollar**, 1834, **NGC** AU-53, O-109, small date, small letters. Well struck, medium gray with luster still at the borders. The reverse die is rotated about 10 degrees. Overall an attractive piece. 400.00
- 105 **Seated Liberty Half Dollar**, 1850-O, **PCGS** AU-50. Excellent eye appeal with natural gray/gold surfaces. It would be hard to improve on this for the grade - worth a strong bid. 350.00-375.00
- 106 **Seated Liberty Half Dollars**, 1858-O and 1859-O. G and AG/G respectively. Problem free other than lots of honest wear. Two pieces. 75.00
- 107 **Seated Liberty Half Dollar**, 1866, **PCGS** XF-40. This was the first year the motto was added on the reverse - one year after the end of the Civil War. Auction sales records show prices of around \$300 for similar coins. Medium gray with touches of blue. 300.00
- 108 **Seated Liberty Half Dollar**, 1878, **PCGS** AU-50. Another very pleasing coin with natural gray/russet borders. This coin was the final year for large mintages and is a great example of variety 5. These have sold at auction for as much as \$352 (CAC sticker). 250.00-350.00

- 109 **Seated Liberty Half Dollar**, 1881, **NGC** Proof-63. From 1879 to 1890 mintages of the business strike halves fell to only several thousand per year, however, Philadelphia still produced proofs for each year. In 1881, 975 Proofs were minted. This example has medium gray natural toning, the devices somewhat lighter. The fields are very clean for the assigned grade. Late date Seated Half Dollars have always been popular with collectors because of the rarity. 1,350.00

- 110 **Barber Half Dollars**, 1895-O and 1896-O. Both are better dates in the series grading AG to G. 2 pcs. 50.00
- 111 **Barber Half Dollar**, 1912-D, **PCGS** XF-40. A touch of peripheral toning at the edges. A pleasing example. 225.00
- 112 **Barber Half Dollar**, 1912-S, Fine. 45.00

HALF DOLLARS, CONT.

ESTIMATE

- 113 **Walking Liberty Half Dollars**, 1917-D and 1917-S obverse mint marks. Both are nice Good examples from this transition year. Two pieces. 52.00

- 114 **Walking Liberty Half Dollar**, 1919-S, **PCGS** Ch. XF-45. This is a scarce date in higher circulated grades, and this is a very nice example that still shows some luster. We hardly ever see early Walkers in better grades. Heritage shows examples selling between \$1,000 and \$1,300, and **PCGS** lists it at \$1,200. A great opportunity to knock off a key date. 1,200.00

- 115 **Walking Liberty Half Dollars**, 1941 and 1942. Both are Ch. AU/BU and fully lustrous. Two pieces. 50.00+
- 116 **Walking Liberty Half Dollar**, 1943, **NGC** MS-65, lustrous and well struck. 115.00
- 117 **Doubled Die Walking Liberty Half Dollar**, 1943-D, FS-101, **ANACS** AU-50. A neat coin with obverse doubling most noticeable on the motto caused by a working hub that was itself doubled! Consequently this variety is quite common but still neat. 25.00+
- 118 **Walking Liberty Half Dollars**, 1944 and 1945. AU/BU and MS-63 respectively. Two pieces. 75.00
- 119 **Walking Liberty Half Dollar**, 1947-D, **PCGS** MS-65. An all around gorgeous specimen of this final year with very frosty surfaces and well struck with the thumb showing. 130.00
- 120 **Franklin Half Dollar**, 1949-S, Ch. AU-58 to MS-60, fully lustrous. The key Franklin date. 45.00
- 121 **Half Dollar Lot. Barbers** include: 1892 AG/G; scarce 1893-O AG; 1894-O AG+; rare 1904-S AG/G; 1905-O G; 1906-O VG; 1913-S G/VG; 1914-S G/VG cleaned; and 1915-D G+. **Walkers** include: 1916 AG; 1917 G; 1917-S obv. AG+ cleaned; 1917-S rev., a nice VG; 1918 G/VG; 1919 G; (2) 1919-S AG and G; and 1920 VG. **Franklins** include: 1949-D AU; 1959-D Ch. AU; and 1962 MS-63. A nice assortment of mostly better dates. 21 pieces. 300.00-350.00
- 122 **BU Franklin Half Dollar Lot.** Includes: 1953-D MS-63; 1954-D MS-63+; 1956 MS-63; 1957-D MS-60; 1958 MS-63/64; 1959 MS-63; 1960-D MS-62; 1961 MS-60; and 1963-D MS-63. Most are fully lustrous, a few with nice toning. 9 pieces. 170.00
- 123 **Doubled Die Kennedy Half Dollar**, 1974-D, FS-101. Ch. AU-55. Strong doubling on “TRUST” and a very neat coin. Overlooked in Mint Sets because people are not aware of the doubled die. 40.00-50.00
- 124 **Silver Matte Kennedy Half Dollar**, 1998-S, **PCGS** MS-68SMS. The mint struck a commemorative dollar for RFK and offered a two piece set including a silver half dollar, but with a unique matte finish. Only 62,000 were minted. 150.00+

EARLY DOLLARS

- *****
- 125 **Flowing Hair Dollar**, 1795, 3 leave variety, **ANACS** XF details, net VF-20 cleaned. Bolender 5 (B5) die variety which is easy to identify because of a raised bar in the field by the top curl of Liberty’s hair. Superb detail especially on the reverse where all the feathers in the wings are boldly defined. A bit bright from cleaning but now starting to retone. Scattered marks and scratches are also present as one expects on these large early type coins. A great opportunity to pick up a high grade example of America’s first silver dollar. 5,000.00-6,000.00
- 126 **Seated Liberty Dollar**, 1842, **ANACS** AU-53. Mintages of these early Seated Liberty Dollars were all somewhat low (184,618 minted of this date) and are popular as a “no motto” type coin. This is a nice example with gold/gray toning and problem-free. 1,100.00
- 127 **Trade Dollar**, 1877-S, **PCGS** XF-40. Like Seated Dollars, problem-free examples of Trade Dollars are very hard to find. This is a nice example with deep gray toning. 300.00
- 128 **Trade Dollar**, 1879, **PCGS** Proof-58. Business strikes were discontinued in 1878 and only Proofs were made from 1879 to 1884. This example is one of 1,541 struck and has gorgeous purple/gold toning over mirrored surfaces. The history of the Trade Dollar is fascinating and the basic design of Liberty seated on implements of trade extending an olive branch towards China was essentially based on a similar design of Britannia on English coinage going back to the 17th century. An affordable example of a beautiful rarity. 1,600.00-2,000.00

PATTERN DOLLAR

ESTIMATE

- 129 **Dollar Pattern**, 1878, Judd-1555, Reeded edge, struck in copper, Barber design, NCS Proof, improperly cleaned. NCS is the conservation arm of NGC. With passage of the Bland-Allison Act, the mint hustled to come up with a new dollar design. Morgan was new to the mint staff and first conceived of his famous design on a half dollar pattern in 1877. He prepared a similar dollar design in early 1878 as did William Barber who was the chief designer at the Mint. Barber's dollar pattern was very similar to his \$50 gold pattern of 1877 with Liberty facing left wearing a coronet. This is a Rarity 7 coin meaning only 7-12 are known. It was last sold at Heritage in November, 2003, Lot 11217. The obverse has been cleaned at one time, but the reverse has not and would grade much higher. Overall the coin is Proof-60. An extremely rare coin that easily could have become the dollar design if Morgan had not won out. Also, considering the rarity, a very reasonable dollar pattern. 4,000.00+

MORGAN DOLLARS

- 130 **Morgan Dollar**, 1878 8TF, AU-50. Simply put, 1878 is a fascinating year for those who love die varieties. In the rush to get out coins, mistakes were made and dies needed to be modified. This is the first of several lots showing the major varieties. The eight tail feather coins were the first minted. This example has semi-P/L obverse fields that are very lustrous although a bit baggy. 120.00
- 131 **Morgan Dollar**, 1878 7/8 TF, VAM-41a, Ch. AU-55 lustrous. This is the second reverse with the parallel feathers and flat breast. A weak 7/8 variety which does not demand the same money as the bolder types. 65.00
- 132 **Morgan Dollar**, 1878 reverse of 1879. Ch. AU-55 with light overtones. On this variety, the eagle's breast is fully rounded, unlike the first issues. 70.00
- 133 **Morgan Dollar**, 1878 7TF, reverse of 1878, Ch. XF/AU with deep blue perimeter toning on the reverse. 55.00
- 134 **Morgan Dollar**, 1878-CC, Ch. XF-45, untoned. 135.00
- 135 **Morgan Dollar**, 1879-S, PCGS MS-65. Very frosty untuned surfaces and well struck. 175.00
- 136 **Morgan Dollar**, 1880-S, VAM 8, MS-62+. Actually, the coin would grade MS-64 or so except for one heavy bagmark on the cheek. Great luster and both sides are semi-prooflike. This is a top 100 variety and is identified by the die fill in the top loop of the second "8" in the date. 150.00
- 137 **Morgan Dollar**, 1880-S, PCGS MS-65+. Visually, this is a gorgeous dollar with very frosty surfaces and an obverse which is proof-like. 200.00
- 138 **Morgan Dollar**, 1882-CC, MS-64, a PCGS crackout with slip included. Fully lustrous and well struck. 275.00
- 139 **Morgan Dollars**, 1882-O/S, AU, cleaned. Also, an 1882-O with the regular mint mark, AU, polished. 2 pcs. 75.00
- 140 **Morgan Dollar**, 1883-S, PCGS AU-58, untuned. This is a popular grade for this date because MS-60 examples are over \$900. 400.00
- 141 **Morgan Dollars** 1884-O. A pair of ex-PCGS (slips included) MS-63 and MS-64 (lt. obv. toning). 2 pcs. 135.00
- 142 **Morgan Dollar**, 1885-CC, PCGS MS-63PL. A beautiful dollar with frosty devices creating a cameo effect over proof-like fields. There is also a touch of gold toning at the rims. The reverse would grade higher and is very clean. This appears to be VAM-3, the tilted mint mark variety, listed as R-4. 850.00
- 143 **Morgan Dollar**, 1887, NGC MS-63. 60.00
- 144 **Morgan Dollar**, 1888-O, MS-63 with pretty light gold toning. 70.00
- 145 **Morgan Dollar**, 1888-S, Ch. XF-45. Still retains luster, the surfaces with some light toning which is not all that pretty. A scarce date. 185.00
- 146 **Morgan Dollar**, 1889-CC, PCGS VG-10. Attractive with lighter devices and darker fields. This is a very pleasing example of the rarest Carson City dollar and a key Morgan Dollar. 790.00
- 147 **Morgan Dollar**, 1889-S, Ch. AU-58, an NGC crackout with the slip included. Attractive with light toning. 175.00
- 148 **Morgan Dollar**, 1890-CC, Fine. Attractive 2 tone gray surfaces. We note a small rim bump at 7:00 reverse. 95.00
- 149 **Morgan Dollar**, 1890-CC, PCGS MS-62. Untoned and very frosty with strong details. A better CC date. 675.00
- 150 **Morgan Dollar**, 1891-CC, PCGS MS-62. A great match to the 1890-CC of the same grade. Untoned and very frosty. Another better date CC dollar. 600.00
- 151 **Morgan Dollar**, 1892-O, PCGS MS-61. A slight touch of gold toning at the edges. 315.00
- 152 **Morgan Dollars**, 1893 and 1893-CC. Good cleaned and Good with some heavy obverse marks. Both of these are rare dates but in affordable condition. Two pieces. 250.00-300.00

MORGAN DOLLAR, CONT.

ESTIMATE

- 153 **Morgan Dollar**, 1894-O, VF. 50.00
- 154 **Morgan Dollar**, 1894-O, AU-50. A former ANACS coin with their slip included. We note some marks on the cheek and faint hairlines. The obverse look is that of a strong AU. 190.00
- *****
- 155 **Morgan Dollar**, 1894-S, **PCGS MS-62**, fully brilliant and well struck. President Cleveland called a special session of Congress to repeal the Sherman Act (which forced the government to buy silver it did not need). Upon passage, silver purchases and silver dollar mintage tumbled while the government focused on replacing gold reserves. Consequently dollar mintages between 1893 and 1895 tumbled creating many dollar rarities including the 1894-S. 1,000.00
- *****
- 156 **Morgan Dollar**, 1895-O, VG. A key date, natural surfaces. 275.00
- 157 **Morgan Dollar**, 1896-O, **PCGS AU-53**. Like the 1883-S listed earlier, this is a very popular grade for this dollar because an MS-60 lists at \$1,550. Natural gray surfaces. Wayne Miller stated that “no other Morgan Dollar is as consistently deficient in luster, strike and degree of surface abrasions as the 1896-O.” He goes on to state that in his opinion this is the rarest of all dollars in Gem condition. 185.00
- 158 **Morgan Dollars**, 1898-S, 1899-S and 1900-O/CC. Cleaned VF/XF, Good and VG respectively. 3 pcs. 107.00
- 159 **Morgan Dollars** 1899-O and 1900-O. A pair of well matched, MS-63 dollars with light gold toning. 2 pcs. 142.00
- 160 **Morgan Dollar**, 1900-O, **PCGS MS-65**, untoned with satiny luster. This is an unusual dollar in that the obverse is immaculate with virtually no bagmarks on the cheek or in the fields. The reverse has a few very minor marks which probably accounts for the grade. Overall, the coin appears to be undergraded. 175.00+
- 161 **Morgan Dollar**, 1900-S, **PCGS MS-62**, brilliant. Late date mint state San Francisco Morgans are all much scarcer than earlier issues. On the day we finalized the auction, we received this coin back from PCGS. A nice frosty specimen, with rather clean fields, a bagmark on the cheek holding the grade down. 380.00
- 162 **Morgan Dollar**, 1902-S, **PCGS AU-53**, light gold/gray toning. A better date. 280.00
- 163 **Morgan Dollars**, 1903 and 1903-S. Ch. AU-55 and Good respectively. Two pieces. 125.00
- 164 **Morgan Dollar**, 1903-O, **PCGS MS-64**. Up until 1962, this was the undisputed “king” of Morgan Dollars and listed in BU at an incredible \$1,500. But, the discovery of BU bags in 1962 changed the market overnight. BU examples are more common than circulated specimens! Still, this is a popular date in the series. This example is untoned, frosty, and well struck. 500.00
- 165 **Morgan Dollar**, 1904-S, Ch. VF-35, a **PCGS crackout** with the slip included. Natural gray toning. 120.00

PEACE DOLLARS

- 166 **Peace Dollar**, 1921. An affordable G/VG example of this key date. 100.00
- 167 **Peace Dollar**, 1921. **ANACS MS-62**. Better detail than we usually see on this high relief strike. Plenty of luster with toning developing on both sides. Technically this is a popular one year only type coin. 360.00
- 168 **Peace Dollar**, 1922, **NGC MS-64** with pretty gold toning. 55.00
- 169 **Peace Dollar**, 1923, **NGC MS-63**, mostly brilliant, light gold. 50.00
- 170 **Peace Dollar**, 1926-S, **PCGS MS-64**. Frosty and untoned. Overall a very appealing example. 310.00
- *****
- 171 **Peace Dollar**, 1928, **PCGS MS-64**. The surfaces on this coin are extremely clean for the grade. Satiny luster with light gold/gray toning. In MS-64 grade or higher, this becomes a very scarce coin and after the 1934-S it is the rarest Peace Dollar in this grade. An excellent opportunity to pick up a beautiful example of a classic rarity. 1,550.00
- *****
- 172 **Peace Dollar Lot**. Includes 1927-D VF; (2) 1928-S F/VF and XF; and 1935-S VG, rough surfaces. 4 pcs. 150.00

MODERN DOLLARS

ESTIMATE

- 173 **“Brown” Eisenhower Dollars**, 1971 to 1974, Proof. The regular issue Ike Dollars had no silver, but for four years only, the mint offered 40% silver Proof Ike dollars that were packaged in a brown box. A few are toned, and we can see a small spot on the 1972. Four pieces. 76.00
- 174 **Proof Susan B. Anthony Dollar**, 1981-S, NGC Proof-68 ultra cameo, faint toning noted. 170.00+

U.S. GOLD COINS

- 175 **Type I \$1 Gold**, 1852, ANACS Ch. AU-58. A pretty lustrous example of this common date. 375.00
- 176 **Type III \$1 Gold**, 1856, Upright 5 variety, AU-50. This is the rarer of the two varieties. 350.00
- 177 **Liberty \$2.50 Gold**, 1907, PCGS MS-63. An attractive coin with satiny luster and orange overtones. This is an issue where the premium has fallen significantly from prior years and represent a good value by comparison. This is the last year for this type. 600.00
- 178 **Indian \$2.50 Gold**, 1926, NGC MS-62, bright luster. Bela Pratt’s incuse design which is very popular today, but not when it was first issued. 550.00
- 179 **Liberty \$5 Gold**, 1881, AU-50. A pleasing example of a common date. 490.00
- *****
- 180 **Liberty \$5 Gold**, 1890, PCGS Ch. AU-55. Incredibly, only 4,240 were minted of this date! PCGS currently lists this at \$1,100. Heritage has prices realized for this grade up to \$1,645. 1,100.00+
- *****
- 181 **Indian \$5 Gold**, 1913, NGC MS-61. A very popular U.S. gold type. 750.00
- 182 **Liberty \$10 Gold**, 1849, Ch. VF-30. Pre Civil War gold is always popular, the motto on the reverse not being added until 1866. 1,000.00-1,200.00
- 183 **Liberty \$10 Gold**, 1882, PCGS MS-62, soft luster. This currently lists in Coin World at \$1,250. 900.00-1,200.00
- 184 **Indian \$10 Gold**, 1910, NGC Ch. AU-55. A pretty coin in a newer holder. This is St. Gaudens’s “other” design which is a popular type coin with collectors. 800.00
- 185 **Indian \$10 Gold**, 1932, PCGS MS-63. For all practical purposes, this is the last collectible year. Very clean surfaces and a nice type piece. PCGS lists this at \$1,090 with Coin World at \$1,150. 1,100.00
- *****
- 186 **Liberty \$20 Gold**, 1874-CC, ANACS AU-53 details, cleaned. The cleaning is very faint with some hairlines apparent. The overall “look” of the coin is quite pleasing. Records show another AU coin that had been cleaned and graded by NGC sold on 9/14 for \$2,800. With AU coins selling for over \$4,000, and listing in Coin World at \$7,750, these appear to be a bargain. “CC” Twenties have always been popular coins - a neat piece of the American west. 3,000.00+

- 187 **Liberty \$20 Gold**, 1899-S, PCGS XF-40, old “rattler” holder. Probably XF-45 by today’s standards. 1,500.00
- 188 **St. Gaudens \$20 Gold**, 1908 no motto, PCGS MS-64. A pretty orange/yellow example of this first year. 1,900.00
- 189 **St. Gaudens \$20 Gold**, 1924, PCGS MS-63. A common grade mint state Twenty. These have come down significantly from two years ago. 1,650.00

196	Isabella Quarter , 1893, PCGS Ch. AU-55. Columbian Exposition Half Dollars were issued in the millions, but the Isabella Quarter from the same exposition saw a mintage of only 24,214. This is a nice lustrous AU example which is untoned.	440.00

200	Oregon Trail Half Dollar , 1926-S, ANACS MS-63, deep toning with blues and russets. The team of James and Laura Fraser designed this beautiful commemorative.	175.00

Sponsored by the Pennsylvania State Commission of Gettysburg, President Roosevelt honored both Union and Confederate soldiers on the 75 th anniversary (July 1-3, 1938). Only 26,928 coins were struck and this has become one of the most popular of the early commems. This is a lustrous, untuned example.	550.00
203	Texas Independence Centennial , 1937-S. MS-62, a former PCGS "crack-out" with the slip included. Mostly brilliant with light toning at the peripheries. Only 6,637 were issued of this popular issue with the Alamo on the reverse.	160.00
204	Texas Independence Centennial , 1938-D, PCGS MS-64. Another scarce date with only 3,775 minted. Lustrous and untuned. This is one of the more interesting designs with both Houston and Austin depicted. It amazes us how inexpensive some of these very low issue halves currently retail for.	300.00
205	1949 Booker T. Washington Set . An exceptional set that is very lustrous, all grading MS-63 to MS-64. Only 6,004 were minted. Three pieces.	330.00
206	Conditionally Challenged Commems . Includes: 1892 Columbian Expo, AU cleaned; 1920 Oregon Trail grading Good; and a 1925 Stone Mountain, AU, cleaned. Inexpensive early commems. 3 pcs.	95.00
207	Statue of Liberty 3 pc. Proof Set , 1986. Contains the \$5 Gold , Silver Dollar and Half Dollar proofs. These were extremely popular sets when they were issued and rose in price rapidly before reality set in. A beautifully done set that started the renaissance for contemporary commemorative coinage. Original case but box missing.	400.00
208	Mt. Rushmore BU Dollar , 1991-P, NGC MS-69.	42.00
209	Vietnam Veteran's Memorial Proof Dollar , 1994-P, NGC Proof-69ultra cameo.	65.00
210	Prisoner of War Museum BU Dollar , 1994-W, NGC MS-69. The BU version of this dollar lists for more than the Proof because of a much lower mintage.	80.00
211	American Buffalo Proof Dollar , 2001. This is probably the most popular of all recent commems. The issue sold out in just a few days and is one of just a handful that rose in value. The design was essentially a copy of the Buffalo Nickel. Includes all original packaging.	180.00
212	Lewis and Clark Proof Dollar , 2004. One of the more interesting contemporary commemoratives with a Peace Medal depicted on the reverse. Also included is a 2003 Proof First Flight Half Dollar. Both have all original packaging.	52.00
213	High Grade Modern Commem. Lot . All of these are graded by PCGS and includes: 1993 (1991-1995) World War II Half Dollar Proof-69DCAM; 1994 World Cup Half Dollar Proof-69DCAM; 1994-D World Cup BU Half Dollar MS-69; and 1999 Yellowstone Dollar Proof-69DCAM. A pleasing high end lot. Four pieces.	149.00

228	Mint Sets , 1964, 1968-1970. All in original packaging. 1964 was the last year for 90% silver Mint Sets, and they were discontinued as were the Proof Sets for Special Mint Sets from 1965-1967. Finally, in 1968, the Mint and Proof Sets resumed their traditional roles. The 1968-1970 Mint Sets were the only years the 40% Half Dollars were issued. Four sets.	65.00
229	Mint Sets , 1976. A 40% silver 3 piece set plus the regular Mint Set for the Bicentennial year. 2 sets.	26.00

In 1982 and 1983, the U.S. Mint did not offer uncirculated (mint) sets to collectors. The only way to get mint issued sets with uncirculated coins were the souvenir sets. The 1983-D included has a Red Book value of \$110. A total of six sets.	100.00+

U.S. CURRENCY

232	\$10 Gold Certificate , 1922, Fine, F-1173. A nice mid-grade specimen with good color. We note a small pen mark on the front. Michael Hilgas is depicted on the front - the first Treasurer of the United States. An impressive large size note from a time when we had "real" money.	200.00
233	\$1 Silver Certificate Star Note , 1923. VF or better. While the large size \$1 Silver Certificates are quite common, star notes are not. A very pleasing note overall.	175.00+
234	\$1 Federal Reserve Notes , 1974. The first of two neat lots. Included here are three bundles of (100) notes each, all issued by the San Francisco FRB. The notes inside each bundle are consecutively numbered and are crisp uncirculated. We note one star note and one error note (a large ink smear on the front). A few notes at the ends show some handling on the edges coming from years of storage. These catalogue at \$4 to \$6 each. 300 notes.	1,200.00

- 235 **\$1 Federal Reserve Notes**, 1977. Again, issued by the San Francisco FRB. Seven bundles of (100) consecutively numbered notes each, with two star notes at the end of one bundle. Some notes show slight handling on the edges, but most are nice crisp uncirculated. This lot and the preceding were bought at a local bank when they were issued years ago, and put away for a long time. This is the first time they have been offered for sale. Catalogue values are \$4 to \$6 each. 700 notes. 2,000.00-2,800.00
- 236 **\$1 Federal Reserve Notes**, 1977, with dual courtesy autographs. Both notes are crisp uncirculated and have strong autographs of both Morton and Blumenthal over their respective printed signatures on the notes. We have found in our research auction results between \$31 and \$63 for these notes. A very interesting historical item. A popular item with currency collectors. Two notes. 65.00-125.00

- 249 **Sticker Dollar - Parker's Patch**, "Garden of Weeden, 4½ Miles North of Nenena, Alaska, Box 28." We have not seen one these since 1991! The sticker is on a 1921 Morgan Dollar and is complete with only the slightest imperfections around the rim and all lettering is legible. This really does not look like a paper sticker. Perhaps it is celluloid. 100.00
- 250 **"This is a Coal Dollar."** Another sticker dollar, this one is much more common than Parker's Patch. The sticker is complete with all lettering legible. The host coin is a 1923 Peace Dollar. 40.00
- 251 **Alaska 25th Anniversary of Statehood**, 1984. "Silver Anniversary Edition" and map on one side, 'North to the Future' and a cache on the other. (5) one ounce silver medals. 160.00
- 252 **State of Alaska Fractional Medals**, 1990. The state authorized their medal program in 1989. We rarely see these early fractionals any more. 1990 featured a walrus on the obverse and the mandatory State Seal on the reverse. Included are (2) ½ troy oz. and (2) ¼ troy oz. - 256 **Pioneers of Alaska**, Annual Convention medal, 2002. "Fairbanks on the Chena 100 Years" with a standing portrait of Felix Pedro. The reverse has the emblem of the Pioneers of Alaska. Very attractive medal by the Evergreen Mint in Anchorage. One ounce silver. 40.00
- 257 **State of Alaska 1/10 oz. Gold Medal**, 2004. A polar bear head is depicted on the obverse. Only 182 were actually minted. Original packaging. 200.00+
- 258 **Anchorage Fur Rendezvous 1/10 oz. Gold Medal**, 2004. Only (10) were struck by the Alaska Mint! The obverse of the medal depicts fireworks and appears to be proof as issued in its original capsule. A rare opportunity. 200.00-300.00
- 259 **Alaska 50th Anniversary of Statehood Silver Proof Medal**, 2009. The obverse design was taken from the famous photo of President Eisenhower, Governor Mike Stepovich, and Secretary of Interior Fred Seaton looking at a newspaper headline "We're In." Today, we might like to look at a headline stating "We're Out." These retailed in 2009 for \$65. 70.00
- 260 **Three Different Oxford Silver Bars**. All have the map of Alaska on the front. Two have stars in the pattern of the Alaska flag on the back; one large stars, one small stars. The 3rd has an Oxford pattern. 3 oz. of silver. 66.00

ALASKANA

- 261 **White Pass & Yukon Brass Bag Tag(?)**. This looks like it was made to be strapped onto cargo. Imprinted on the face is "The Property of the White Pass & Yukon Route, Skaguay, Alaska. Please return this holder with both card checks to this Co. soon as possible." Note the early spelling of Skagway. Brass, 68mm by 57mm. Discolored, but should polish up nicely. In the right hands, this could be turned into a cool belt buckle. 25.00+
- 262 **Fur Rendezvous Button**, 1960. Fur Rondy buttons from the early 60s are hard to find. We remember when these were all the rage in Anchorage and there was a thriving market. Those days are gone, but these buttons are still scarce. The Alaska Mint has a 1961 button on their web page for \$450. We believe that this one is probably comparable. Very nice condition with only a few small brown spots. 200.00+
- 263 **Fur Rendezvous Pin**, 1966. These very scarce pins appear to be made out of ceramic. 2¼ inches long, 2 inches wide, with a musher and dog sled depicted. A good picture of this can be seen on the Alaska Mint website where an example is offered at \$200. 200.00
- 264 **Alaska Purchase Centennial Charm**, 1967. This tiny charm (10.5mm) is 10kt and weighs .035 troy oz. (.0147 troy oz. AGW). This must be the smallest item from the Purchase Centennial to portray the official logo - the Purchase Centennial Totem, with the Alaska flag and mountains. Very collectible. 50.00
- 265 **Yukon Quest Pins & Buttons**. Included are 1993 and 1995 pins and buttons, and 1988, 1991, 1992 and 1994 pins. The 1993 celebrates the Quest's 10th anniversary. Attractive and popular. 8 pieces. 40.00+
- 266 **10kt Mountain Goat Pin**. This pin is a well done, three dimensional pin showing a mountain goat head and having a total weight of .170 troy oz. (.07 troy oz. AGW). This can be worn as either a tie tac or lapel pin. New, about \$300. 150.00+
- 267 **Unusual Alaska Gold Nugget Lapel Pin**. Recently, we purchased some inventory from the old Eskimo Museum which went out of business in the late 1970s. The pin is oblong in shape (1½ inches by ¾ inch) and open in the center giving it a flattened "O" appearance. It was made by Merle Reed with a 10kt gold back covered by chunky gold nuggets. The weight is .278 troy ounces. This is a new item in its original box that has sat for over 40 years in the museum owner's house. 500.00
- 268 **Gold Hunter Charm**. This is a 10kt charm we have not seen before. A standing hunter aiming a rifle. Total weight is .072 troy oz. (.03 troy oz. AGW). New, \$190. 100.00+
- 269 **Gold Billiken Charm**. A cute 10kt charm made by J.L. Houston. Total weight is .084 troy ounces. The infamous Billiken was considered a good luck charm... rub the belly and get good luck. Although many Alaskans thought Billikens were a part of native folklore, they were actually invented by Florence Pretz of Kansas City and adopted in Alaska about 1909. 125.00

MISCELLANEOUS

- 270 **U.S. 20th Century Type Set.** This is a framed set most likely put together around 1966. Includes Cents through Silver Dollars. Highlights include: 1914-S Half, Good; 1943 Half, XF/AU; 1898-O Dollar, MS-63/64 (beautiful reverse toning); and a 1925 Dollar, BU. All the silver issues are represented. Overall, a neat set. 24 pieces. 160.00
- 271 **14kt Gold Locket.** This locket is new with space for two pictures inside. Total weight is .07 troy ounces and it measures 3/4 inch by 1/2 inch. We don't seem to see as many of these as we used to. 150.00
- 272 **Collectible Coin Pages.** Here is a style album page we had not seen before. These "Treasury of Coins" pages (6) for Lincoln Cents, 1909 to 1963-D were made for the Coin and Currency Institute, copyright 1963. These pages were made to fit in a small three ring binder. Like Whitman folders, the coins are pressed into the openings. What is different is that the backing sheet is cut slightly smaller than the opening so that you can see most of the reverse. An interesting concept, but by 1963, Whitman, Harris and Dansco had the coin folder and album market pretty well sewn up. Six pages, really neat! Also included are two large green Whitman folders for Mercury-Roosevelt Dimes and Jefferson Nickels. Finally, an older Dansco folder for Lincoln Cents, 1909-1929, pink, not the current brown! 60.00
- 273 **Silver Dollar Albums.** Two albums for Morgan Dollars and one for Peace Dollars. These Littleton albums are nearly new, and just waiting for your purchases from earlier in the auction. 30.00
- 274 **Coin Albums and other supplies.** Included are Littleton albums for Liberty Nickels and SBA Dollars. These are new, as the slides have not even been put in the pages. Also included are used Littleton albums: (2) Washington Quarters, 1932-1967, one with slip case; Jefferson Nickels, 2007- , with slip case; and a blank binder: Whitman Folders: Peace Dollars and (2) National Park Quarters, 2010-2015 and 2011-2016 (both new). Finally, used coin supplies including: Coin tubes - (50+) for cents, the balance for nickels and dimes, a total of (94); (9) Coin World slab-type holders for dollars; and (2) Capital Plastics holders for quarter and commemorative half dollar. A nice assortment of used and new coin collecting supplies. 25.00+
- 275 **PCGS Population Reports,** April 2004 and April 2006. The 2004 states on the cover "A census of more than 9,000,000 coins..." By the 2006 edition, that number was 12,000,000. We believe the last printed version was 2007, and we miss these printed copies - a great research reference. 10.00
- 276 **Standard Catalog of World Coins,** (5) volumes: 1601-1700, 3rd ed. 2003; 1701-1800, 4th ed. 2007; 1801-1900, 7th ed. 2012; 1901-2000, 33rd ed. 2006; and 2001-date, 3rd ed. 2009. These five volumes provide nearly all the information you will ever need on world coins. While these are "older" editions, the prices don't really change that much. The major change from year to year are the prices that are related to the silver and gold prices, and any precious metal coin has the actual metal content shown. These massive catalogues stack 10.5 inches high, a tremendous amount of information. New, the total retail on these was \$315. A bargain at... 150.00+
- 277 **Standard Catalog of World Paper Money,** (3) volumes: General Issues, 1368-1960, 11th ed. 2006; Specialized Issues, 10th ed. 2005; and General Issues, 1961-present, 11th ed. 2008. Another great set of references. When new, these retailed at \$190. A bargain at... 100.00
- Note: Because of size and weight, the previous two lots will not be at the auction, but can be picked up at our store.**
- 278 **1914 Children's Book, Queen Tiny's Little People** by Claude Wetmore, illustrations by Mildred Bakey and Theresa Jones. This is a neat book published by the Macaulay Company. The children's books from this period of time seem so much more inviting than they do today. There is water staining that hurts the value a bit. 30.00
- 279 **Surprise Package:** Do you keep your server in your home to protect folks from snooping into your emails just like famous people? We do too! We also keep some coins off site as well....Just because. This package was put away some time between 1979 and 1980 with precious coins and maybe other stuff put in. It has not seen the day-light in 35 years! There's got to be something good in it. You trust us, don't you? ???.
