## FAIRBANKS AUCTION - FALL 2017.

Saturday, October 21, 2017.

Soapy Smith's Restaurant, 543 Second Ave., Dinners available starting at 5PM.

Auction at 7:00 P.M. and Lot Viewing at 6:00 P.M.

Welcome to our **74<sup>th</sup> Fairbanks auction!** We are pleased to offer a great Morgan Dollar run with many key dates and high grades including the very rare 1901 Doubled Die. Also included is a Proof 1864 Seated Liberty Dollar - the last no motto Proof Dollars. There is a nice selection of Seated Half Dollars including the rare 1887. Finally, we are pleased to offer many of the classic rarities: 1877 Indian Cent, 1909-S VDB Lincoln Cent, 1937-D 3-legged Buffalo Nickel and 1916-D Mercury Dime.

The estimated values listed after the lots in this auction are based primarily on four sources; Coin World "Coin Values", Numismatic News "Coin Market", the Coin Dealer Newsletter (Graysheet), and PCGS/NGC websites. Coin pricing is difficult and several sources should always be used for valuation. Prices realized are automatically sent to all mail bidders. If you would like to receive a copy but do not care to participate in the auction, please send \$1 along with a self-addressed, stamped envelope.

**TERMS:** There are no reserve bids in this auction. All lots are sold as-is. Unlike many auctions, there is no buyer's charge. There can be no returns after the auction is completed except in the case of mail bidders, on non-certified coins, who do not have the opportunity to inspect the lots. PCGS, NGC or ANACS certified coins are not returnable unless they have been misidentified. All coins are guaranteed genuine. Lots can be picked up after the auction and payment must be with cash or personal check by prior approval. Lots may also be picked up the following week at our store.

Mail bidders should call or write their bids indicating the lot number and the maximum bid they wish to pay. Bids may also be submitted by E-mail to [akcoins@mosquitonet.com](mailto:akcoins@mosquitonet.com). Your lots will be purchased for less if possible, and in no case will the maximum be exceeded. Your bids will be called from the book as if you were at the auction in person. Coins will be sent immediately upon receipt of payment and postage will be added to the invoice. If any lots are unsatisfactory, they must be returned within 7 days of receipt. Mail bidders are expected to honor their bids and pay promptly so that consignors do not have to wait for payment.

Lots will be on display in our store from Saturday October 14<sup>th</sup> to Friday October 20<sup>th</sup>.

|----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------|
| 1  | <b>Ancient Coin: Rome</b> , Diocletian, 302-303AD, bronze Follis, Thessalonika Mint. A little smaller than a half dollar with good detail, a little corrosion.                                                                                                                                                                                                                                                                                         | 60.00   |
| 2  | <b>Ancient Coin: Rome</b> , Licinius I, 308-324AD, bronze Follis, Alexandria Mint. Reverse is Jupiter standing. About the size of a nickel.                                                                                                                                                                                                                                                                                                            | 30.00   |
| 3  | <b>Ancient Coin: Rome</b> , Constantine I, 306-337AD, bronze Follis. Smaller than a dime, we are told this is a posthumous issue, issued after his death in 337AD.                                                                                                                                                                                                                                                                                     | 30.00   |
| 4  | <b>Ancient Coin: Tabaristan</b> , 780-800AD, silver Half Dram. Unidentified portrait on the obverse, a Zoroastrian fire alter with two attendants on the reverse. About XF, with some dark toning on the obverse. About the size of a quarter, but very thin.                                                                                                                                                                                          | 40.00   |
| 5  | <b>Australia Gold Sovereign</b> , 1887-M, Ch. XF-45, St. George reverse. This was the last year for the young head type. Lustrous but baggy. Contains .2354 troy ounces of gold.                                                                                                                                                                                                                                                                       | 365.00  |
| 6  | <b>Australia Silver \$10</b> , 2015. This 10 troy ounce coin is part of the Lunar New Year series with the Queen on the obverse and (3) goats on the reverse (year of the goat). The coin has a reverse proof look to it and is close to perfect although the plastic capsule shows some wear. An impressive coin.                                                                                                                                     | 250.00  |
| 7  | <b>BU Roll of Austria Philharmonic silver coins</b> , 2011. These beautiful coins are one troy ounce each and are quite thick. Competition to the Eagle and Maple Leaf. 20 pieces.                                                                                                                                                                                                                                                                     | 420.00  |
| 8  | <b>Canada Small Cent Collection</b> . Complete from 1920 to 1972. The key dates 1922 and 1923 are VG, while the 1925 is VF. Also included are (3) other partial sets with a total of (113) cents, but no keys. These are all housed in blue Whitman folders which are no longer made.                                                                                                                                                                  | 100.00+ |
| 9  | <b>Canada Silver Dollars</b> , 1982. Includes both Proof and BU specimens. Commemorates Regina, Saskatchewan. Also included are (2) 1987 Proof Loon Dollars from the first year of issue. All have their original packaging. 4 pieces.                                                                                                                                                                                                                 | 40.00   |
| 10 | <b>Canada \$20 Gold</b> , 1967, MS-65 or better. Technically, these were called specimens and were struck to be included in the Canadian Centennial seven piece sets. However, Americans at the time could not legally buy the gold coin, so they received sets with a hole where the gold coin should have been. A neat historical coin containing .5287 troy ounces of gold.                                                                         | 735.00  |
| 11 | <b>Canada \$100, ½ troy oz. Gold</b> , 1984. This popular gold series featured French explorer Jacques Cartier with the tall ship in the background. Cartier explored the St. Lawrence River and claimed what is now Canada for France. Proof and housed in the original leather case and box.                                                                                                                                                         | 725.00  |
| 12 | <b>Canada \$100, ½ troy oz. Gold</b> , 1985. A bighorn sheep is featured this year. A beautiful coin in the original leather case and box.                                                                                                                                                                                                                                                                                                             | 725.00  |
| 13 | <b>Canada “Proof-Like” Sets</b> . These silver sets are sealed in pliofilm similar to U.S. Proof Sets of the early 1960s, and contain the Cent through the Dollar. Each set has 1.11 troy ounces of silver. Includes: (2) 1961 and (3) 1966 sets plus a 1986 non-silver set. Six sets total.                                                                                                                                                           | 132.00  |
| 14 | <b>Canada 90<sup>th</sup> Anniversary Proof Set</b> , 1998. The RCM in 1998 replicated their 1908 Specimen Set which was the first numismatic item offered in Canada! This anniversary issue was limited to 25,000 sets and includes the Large Cent to the Half Dollar using the original designs from 1908, but struck in sterling silver with a proof finish, and Queen Elizabeth on the obverse. Original packaging including the red leather case. | 68.00   |
| 15 | <b>Cook Islands Proof Sets</b> , 1977 and 1978. (2) eight coin sets, both with the silver \$5 coin. The sets are identical except for the designs on the \$5 coins. Attractive, with original packaging with all paperwork. Contains .9778 troy ounces ASW total.                                                                                                                                                                                      | 60.00   |
| 16 | <b>France 20 Franc Gold</b> , 1852-A, Ch. VF-30. This is a one year only type coin with “Louis-Napoleon” On the obverse. Contains .1867 troy ounces of gold.                                                                                                                                                                                                                                                                                           |         |
| 17 | <b>Guyana Proof Set</b> , 1977. Nine coin set with the silver \$5 and \$10. Attractive set that was packaged for the German market, with some of the paperwork in German. Designs feature local animals and national heroes. Original packaging with all paperwork. Contains 1.8852 troy ounces ASW.                                                                                                                                                   | 55.00   |
| 18 | <b>Liberia Proof Set</b> , 1978. Attractive 8 coin set with a silver \$5 coin. The motto, “The Love of Liberty Brought Us Here” is found on several of the coins and the coat of arms. Founded by the American Colonization Society as a homeland for freed black slaves, who displaced the local population and became the elite in the country. Original packaging with all paperwork. .9867 troy ounces. ASW.                                       | 60.00   |
| 19 | <b>New Brunswick 20 Cents</b> , 1862, VF/XF. Before the confederation of Canada in 1867, several of the colonies had their own coinage. New Brunswick had only a few coins, the 20 Cents piece being the highest denomination. Quite scarce with only 150,000 minted.                                                                                                                                                                                  | 150.00  |

## FOREIGN COINS, cont.

ESTIMATE

- 20 **Newfoundland Cents.** Newfoundland was a British colony until 1949, when it joined Canada. As a separate colony, it had its own coinage. Newfoundland coinage is known for remarkably low mintages. Offered here are the following Cents: 1872 XF with a lamination; 1873 VG, corroded; 1880 VG, corroded; 1896 Fine, corroded, cleaned; 1904-H VF/XF; 1907 XF/AU; 1917 EF, corroded; 1929-C XF; 1929 XF. 9 pieces. 100.00
- 21 **Newfoundland Silver 5 Cents.** Even though Newfoundland coinage was issued into the 1940s, they never had a “nickel” like Canada. These little 5 Cents silver coins are always popular. Included are: 1865 AG; 1881 Fine (mintage only 40,000); 1882 damaged; 1903 VG; 1908 EF cleaned; 1912 Fine; 1917-C VF bent; 1938 EF corroded; 1940-C AU; 1944-C AU cleaned; 1945-C AU cleaned; 1947-C XF cleaned. A total of 12 pieces. 150.00
- 22 **Silver Philippine Pesos,** probably sea salvage. Included are a 1908-S and (2) 1909-S. When the Japanese invaded the Philippines in World War II, the silver coins in the Philippine treasury were dumped into Manila Bay. The Japanese managed to salvage some, but the majority would have to wait until after war to be salvaged. The 1908-S is dark, one 1909-S is not as bad, and the other 1909-S cleaned up quite nicely, looking like it was probably mint state when it hit the water. Very attractive design with Liberty striking an anvil with a smoking volcano in the background. Three coins with over 1.5 troy ounces ASW total. Great historical pieces. 45.00
- 23 **Russia 5 Roubles Gold,** 1898, XF+ but we note some marks on the reverse. Czar Nicholas is on the obverse. He was later executed by the Bolsheviks. Contains .1245 troy ounces of gold. 290.00
- 24 **Straits Settlements 20 Cents,** 1898. XF. Now part of Malaysia. A scarce coin in high grade. 70.00
- 25 **Trinidad & Tobago Proof Set,** 1977. Attractive 8 coin set featuring mostly birds and flowers. Includes the silver \$5 and \$10 coins. Original packaging with all paperwork. Contains 1.9262 troy ounces ASW. 75.00
- 26 **Winter Olympics Coins: Ski Jumping.** Included are: Innsbruck, Austria, 1964 50 Schillings, BU; (2) Poland 1980 (for the Lake Placid Olympics) 200 Zloty, Proof, one with torch and one without; and Albertville, France 1990, 100 Francs, Proof. Four coins with over 2 troy ounces ASW. 130.00+

## HALF CENTS

- 27 **Classic Head Half Cent,** 1826, **PCGS** XF-45. Strong detail and nice uniform brown. A great type coin. 175.00
- 28 **Classic Head Half Cent,** 1834, a pleasing brown VF-20. Only 141,000 minted. 90.00

## LARGE CENTS

- 29 **Draped Bust Large Cent,** 1798, S-179, second hair style, **PCGS** Fine details, scratch. Pleasing uniform brown planchet with excellent hair detail. The scratch referenced is not really visible without a loupe and runs through the date. 325.00-400.00
- 30 **Draped Bust Large Cent,** 1802, About Good, with stems variety. A nice planchet with a strong date, just lots of wear. 50.00
- 31 **Large Cent Lot.** There is some interesting material here. Includes: 1816 AG; 1818 G; 1820 VG with scattered marks; 1829 G with fancy engraved initials on the obverse typical of love tokens of that era; 1833 VG with a strange disturbance at 6:00 obverse; 1837 G with a large “1872” counterstamp; plus one dateless example. 8 pieces. 150.00
- 32 **Coronet Large Cent,** 1819/8, **PCGS** VF-30, Large Date. A neat early die variety with a slightly rotated reverse. 160.00
- 33 **Matron Head Large Cents,** 1851 to 1857. This is a neat lot of the last seven years for the Large Cent. Includes: 1851 Good; 1852 overall VF, very lightly porous; 1853 G/VG; 1854 Fine but with scratches at the date; 1855 VF, a few rim bumps on the reverse; 1856 F/VF slanting 5 variety with a mark in the obverse field; and the scarce 1857 Fine, but with some problems. Seven pieces. 200.00

| 34 | <b>Flying Eagle Cent</b> , 1857, Fine.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | 50.00         |
| 35 | <b>Indian Cent</b> , 1859, Ch. VF-30. A great example of this one year only type coin with strong detail.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | 60.00         |
| 36 | <b>Early Indian Cents</b> . Includes: (3) 1859; (4) 1862; (7) 1863; and (2) 1864. These range in grade from Poor up to VF, but most have problems. Also included are an 1896 VF/XF and a 1905 XF. 18 pcs.                                                                                                                                                                                                                                                                                                                                                                                                                                 | 120.00+       |
| 37 | <b>Indian Cent</b> , 1862, XF-40.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | 50.00         |
| 38 | <b>(3) Civil War Tokens, 1863</b> . Hundreds of Civil War Tokens (CWT) were issued to alleviate the coin shortage. There were some merchant tokens, but many were "Patriotic" tokens. Here are three featuring George Washington: Portrait / Union For Ever; Portrait between flags / shaking hands, Peace Forever; and 1863, equestrian Washington, First in War, First in Peace / Union For Ever. Three nice tokens, VF to XF with minor problems. Three pieces.                                                                                                                                                                        | 90.00+        |
| 39 | <b>(3) Indian Head Civil War Tokens, 1863</b> . These closely approximate the obverse of the Indian Cent. The reverses are: "Not One Cent" in wreath; Army & Navy in wreath; and cannon, drum and flags in wreath. Grading from Fine to XF. Three pieces.                                                                                                                                                                                                                                                                                                                                                                                 | 80.00         |
| 40 | <b>Indian Cent</b> , 1868, Good, rare.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | 40.00         |
| 41 | <b>Indian Cents</b> , 1871 and 1873. The rare 1871 has XF detail but is corroded. The 1873 grades VG but is also corroded. Two pieces.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | 100.00        |
| 42 | <b>Indian Cent</b> , 1872, <b>PCGS</b> Good-4. A key date in the series.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | 100.00        |
| 43 | <b>Indian Cent</b> , 1877, <b>PCGS</b> VG-8. The "king" of the Indian Cent series and a coin most collectors are missing in their sets. Isn't it time you filled the hole? Authentication is always recommended for this date as many are altered.                                                                                                                                                                                                                                                                                                                                                                                        | 650.00        |
| 44 | <b>Indian Cents</b> , 1897 and 1901. Ch. AU/BU and MS-63/64 respectively. The 1901 still has red. A nice pair.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | 100.00        |
| 45 | <b>Indian Cent</b> , 1900, <b>NGC</b> MS-63RB. A pretty coin with full diamonds.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | 85.00         |
| 46 | <b>Indian Cent</b> , 1909-S, <b>PCGS</b> VF-20. San Francisco only minted Indian Cents for two years, the 1909 being much rarer than the 1908. The 1909-S also has the distinction of being the lowest mintage coin in this popular series with less than half the mintage of the famous 1877. A problem-free example with no spotting.                                                                                                                                                                                                                                                                                                   | 550.00        |
| 47 | <b>Lincoln Cent</b> , 1909-S VDB, <b>PCGS</b> Fine-12. A great example of the classic American rarity. The wheat ears are complete with no flat spots. The prices have come down on many key date coins over the last several years giving "procrastinators" a great opportunity.                                                                                                                                                                                                                                                                                                                                                         | 650.00        |
| 48 | <b>Lincoln Cents</b> , 1910, MS-63 Red. Also included is a 1953 <b>Washington/Carver Comm. Half Dollar</b> , MS-63/64, brilliant (mintage of only 8,003). A neat pair. Two pieces.                                                                                                                                                                                                                                                                                                                                                                                                                                                        | 85.00         |
| 49 | <b>Lincoln Cents</b> , 1912-D and 1912-S, XF cleaned and F/VF respectively. Two pieces.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | 65.00         |
| 50 | <b>Lincoln Cent</b> , 1914-D, <b>PCGS</b> VF-20. Over the years we are amazed at the difficulty of this date. It seems that we see more examples of the rare 1909-S VDB than of the 1914-D, and most specimens we see are problematic. This is an attractive certified example.                                                                                                                                                                                                                                                                                                                                                           | 300.00        |
| 51 | <b>Lincoln Cent</b> , 1917-D, <b>PCGS</b> MS-63BN. A difficult date in mint state.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | 150.00        |
| 52 | <b>Lincoln Cent</b> , 1920, <b>PCGS</b> MS-64RB. No spotting.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | 65.00         |
| 53 | <b>Lincoln Cent</b> , 1922 no "D" Cent, <b>ANACS</b> Good-6, die pair 2. This is the only die pair that "Cherrypicker's Guide" will list as it has the strong reverse. These should not be purchased unless certified by a recognized third party.                                                                                                                                                                                                                                                                                                                                                                                        | 600.00        |
| 54 | <b>Lincoln Cents</b> , 1922-D and 1931-D, Fine and XF respectively. A pair of tougher dates. 2 pieces.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | 41.00         |
| 55 | <b>Proof Lincoln Cents</b> , 1951-1953. These are all Proof-65 or better, the 1951 with deep violet toning, the other two mint red. Three pieces.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | 120.00-145.00 |
| 56 | <b>Double Die Lincoln Cent</b> , 1972/72, <b>PCGS</b> MS-63RB. We never thought it would be possible again after the 1955 Doubled Die, but the Mint came through in 1972 with bold doubling on the date and all the lettering on the obverse. A key for the Lincoln series, and much cheaper than they were a few years ago.                                                                                                                                                                                                                                                                                                              | 350.00        |
| 57 | <b>Early Date Lincolns</b> . Includes: 1909 VDB VF; 1910 VG; (2) 1911 F and VF; 1911-D G; 1916 VF; 1916-D VF; 1917-D F; 1917-S F; and (20) more from 1918 to 1935 with a nice mix including 1921-S VF/XF, 1926-D XF+, 1931-D VF and 1935-D AU/BU. Mostly nice problem-free coins. 29 pieces.                                                                                                                                                                                                                                                                                                                                              | 75.00         |
| 58 | <b>Chips, Clogs, Breaks and Laminations</b> . This is a neat lot of minor mint error Lincoln Cents, mostly from the 1930s to the 1950s, but with some later. There are die chips and breaks, clogged letters and numbers, laminations and other imperfections. A few, we think, are a figment of the previous owner's imagination. Included are a pair of <b>brass plated</b> Cents (1998-D and 2003-D). Current Lincoln Cents are copper plated, but when you put the zinc planchets into the plating solution, some of the zinc combines with the copper, producing a brassy (yellow) plated cent. Tons of fun for everyone. 60 pieces. | 60.00+        |

## THREE CENT PIECE

ESTIMATE

- 59 **Three Cent Nickel Lot.** Includes: 1865 F/VF light hairlines; 1866 VF+; 1867 VF with some faint obverse scratches; 1872 VF or so; and 1873 VF/XF. Five pieces. 125.00+

## HALF DIMES

- 60 **Seated Liberty Half Dime**, 1848, XF-40, medium date. A touch bright, possibly cleaned. 70.00
- 61 **Seated Liberty Half Dime**, 1853 with arrows. A lustrous AU-50 with some interesting clash marks on both sides. The only distraction is a single narrow scratch in the left obverse field visible under power. A neat type coin, the arrows added to draw attention to the new reduced silver content to discourage hoarding. 110.00-140.00
- 62 **Seated Liberty Half Dime**, 1858, XF-40 or better, medium gray. 65.00

## NICKELS

- 63 **Shield Nickel**, 1869, Ch. XF-45. A nice example from this short lived series with full horizontal and vertical shield lines. 75.00
- 64 **Liberty Nickels**, 1883 No Cents. For whatever reason, there is a high survival rate for this one year only type coin. Over time, dealers tend to accumulate quantities of them. Included here are (1) Fine, (3) VF and (1) XF examples. Five pieces. 55.00
- 65 **Buffalo Nickels**, 1913 Type 1 and Type 2, MS-60 and AU/BU respectively. The Type 1 is well struck with a full rounded horn while the Type 2 has a medium blue/gold toned surface and a softer strike. A great pair from this first year of type. Two pieces. 65.00
- 66 **Buffalo Nickels**, 1916 and 1938-D, **PCGS** AU-55 and **NGC** MS-64 respectively. The 1916 has deep blue toning, the 1938-D with the light blue/gold toning. we like to see. The NGC holder is one of the earliest varieties they used. Two coins. 60.00
- 67 **Buffalo Nickel**, 1916-D, AU-50 to AU-55. David Lange states that this issue suffers from overly worn dies, with weak central obverse and bison head details. This specimen has a full horn on the buffalo although not as rounded as other issues. Nice luster. 115.00+
- 68 **Buffalo Nickel**, 1921, **PCGS** MS-64. A touch of gold toning over well struck devices. The horn is full and rounded. 450.00
- 69 **Buffalo Nickels**, 1924-S and 1926-S, both are VG. A couple of tougher dates. Two pieces. 83.00
- 70 **Buffalo Nickel**, 1934-D, **PCGS** MS-64. Like the 1921, a full rounded horn plus we notice a neat obverse die crack from the nose back to the feathers on the obverse. 200.00-225.00
- 71 **Buffalo Nickel**, 1937-D Three Legged, **PCGS** XF-40. Another classic rarity and one of America's most popular coins. Although this is actually one of the easiest coins to authenticate, it is always good to have them certified. The horn is touch weak with the point missing. A very natural appearing coin. 750.00
- 72 **Buffalo Nickel Set**, 1913-1938. This is by far the nicest set we have seen in many years. It is complete except for the 1913-D Type 2, 1913-S Type 2, 1914-D, and 1937-D 3-legged. Key dates include: 1913-S Type 1 Good; 1914-S VF/F; 1915-S VG+; 1921-S Good with full date; and 1926-S VG. There are virtually no problem coins in the set and all have full dates. The coins from 1928 to 1938 are XF to BU, the balance Good to VF. Housed in an old Library of Coins album. Current retail (and it took us a long time to figure this out) is about \$1250. 1,200.00+
- 73 **Proof Jefferson "War Nickel,"** 1942-P, **PCGS** Proof-67, Type 2. A truly unique coin in the Jefferson series in that it is the only proof with a silver composition. a beautiful untuned example is offered here of which only 27,600 were minted. 260.00
- 74 **BU Jefferson Nickel Set.** Complete from 1938 to 1980 plus (19) more from 1981 to 1988. Proofs are included from 1971 forward. A very nice set housed in a Dansco album, but we do note one problem - the 1953 is circulated, being the sole exception. 350.00

|    |                                                                                                                                                                                                                                                                               |               |
|----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|
| 75 | <b>Draped Bust Dime</b> , 1807, NGC AG-3. Rare in all grades. Draped Bust Dimes were only issued from 1796 to 1807. This is a pleasing example for the grade with natural gray toning. The reverse still shows most of the vertical and horizontal shield lines.              | 475.00        |
| 76 | <b>Capped Bust Dime</b> , 1820, PCGS XF-40, Small O. Natural attractive two-toned gray. We also notice the center dot typical on many early coins. A difficult type coin in higher circulated grades, with this being the rarer of two types.                                 | 650.00        |
| 77 | <b>Capped Bust Dime</b> , 1825. A nice VG example                                                                                                                                                                                                                             | 120.00        |
| 78 | <b>Seated Liberty Dimes</b> , 1872 and 1875. XF and VG/F respectively. Two pieces.                                                                                                                                                                                            | 68.00         |
| 79 | <b>Seated Liberty Dime</b> , 1890, PCGS Proof-55. Mostly natural gray with gold/blue overtones. Only 590 were struck in this second to last year of this long series.                                                                                                         | 225.00+       |
| 80 | <b>Barber Dime</b> , 1892, AU-50 with some neat reverse clash marks we don't usually see in this series. Also included in this lot are the following Proof-65 or better full red <b>Lincoln Cents</b> : 1956, (3) 1957, 1958, (3) 1959, 1961, 1962 and (2) 1963. Nine pieces. | 180.00-200.00 |
| 81 | <b>Barber Dime</b> , 1894-O, strong G to VG. Barber Dime mintages plummeted this year for all three mints creating great rarities such as the 1894-S (24 minted). New Orleans production fell to 720,000 which was about 20% of the 1894 output. A tough date.                | 80.00-100.00  |
| 82 | <b>Barber Dime</b> , 1901-O, Choice XF-45, medium gray surfaces.                                                                                                                                                                                                              | 100.00        |
| 83 | <b>Barber Dimes</b> , 1905-S, 1908 and 1911. All are XF, the 1908 choice. Three pieces.                                                                                                                                                                                       | 95.00         |
| 84 | <b>Mercury Dime</b> , 1916-D, PCGS AG-3. The date and the mint mark are very clear, and this would make a great inexpensive example of the key date.                                                                                                                          | 450.00        |
| 85 | <b>Mercury Dime Lot</b> . A nice mix of dates and mint marks from 1935 to 1945, mostly AU and well matched. We do note some exceptions - a few are marginal while others are full BU. 41 pieces.                                                                              | 160.00        |

# TWENTY CENTS & QUARTERS

|       |                                                                                                                                                                                                                                                                                                                                                      |           |
|-------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| 86    | <b>Twenty Cent Piece</b> , 1875-S, PCGS AU-50 with bold details, especially on the shield. A great example for a type collector with plenty of luster still evident.                                                                                                                                                                                 | 400.00    |
| 87    | <b>Capped Bust Quarter</b> , 1835, PCGS XF-40. An attractive example with natural gray surfaces and no problems of note. Another great type coin.                                                                                                                                                                                                    | 400.00    |
| 88    | <b>Seated Liberty Quarter</b> , 1856, Ch. VF-30. Pleasing natural surfaces.                                                                                                                                                                                                                                                                          | 70.00     |
| 89    | <b>Seated Liberty Quarters</b> , 1877 and 1877-CC, Ch. VF-30 and G/VG respectively. We note an arc shaped mark on the reverse of the CC quarter. Two pieces.                                                                                                                                                                                         | 100.00    |
| 90    | <b>Barber Quarter</b> , 1909, XF-40, perhaps better. There is luster showing under the natural gray toning, especially on the reverse.                                                                                                                                                                                                               | 75.00     |
| 91    | <b>Barber Quarters</b> , 1911-D and 1912-S, G/VG and VG respectively. A pair of scarce dates.                                                                                                                                                                                                                                                        | 73.00     |
| 92    | <b>Barber Quarter</b> , 1916-D, PCGS MS-64. Untoned and uniform satiny surfaces that are very attractive. We seldom see any mint state Barber coinage. A wonderful example for a type set.                                                                                                                                                           | 575.00    |
| 93    | <b>Standing Liberty Quarters</b> , 1920 and 1920-S, Fine (typical weak date) and Good respectively. 2 pcs.                                                                                                                                                                                                                                           | 50.00     |
| ***** |                                                                                                                                                                                                                                                                                                                                                      |           |
| 94    | <b>Standing Liberty Quarter</b> , 1921, PCGS Genuine. This is a pretty mint state coin with full luster. PCGS gave it the "Genuine" designation because there are some hairlines on a portion of the obverse from a partial cleaning. The overall look is really excellent for this rare date and we encourage bidders to examine this coin closely. | 1,000.00+ |
| ***** |                                                                                                                                                                                                                                                                                                                                                      |           |
| 95    | <b>Standing Liberty Quarter</b> , 1927-S, Fine, a bit bright. This is a key date in the series and becomes pricy in XF or higher.                                                                                                                                                                                                                    | 100.00    |
| 96    | <b>Washington Quarters</b> , 1943-D and 1943-S. Both are MS-64 and brilliant. Two pieces.                                                                                                                                                                                                                                                            | 80.00     |
| 97    | <b>Proof Washington Quarters</b> , 1954 and 1955. Both are Proof-65 or better. Two pieces.                                                                                                                                                                                                                                                           | 39.00     |
| 98    | <b>(4) BU Silver Washington Quarter Rolls</b> . These are nice original rolls including 1954-D, 1960, 1960-D and 1962. As the years go by we see fewer of these rolls which were popular back in the 1960s. 160 pcs.                                                                                                                                 | 730.00    |

# BUST TO BARBER HALF DOLLARS

ESTIMATE

|       |                                                                                                                                                                                                                                                                                                                                                                                                      |               |
|-------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|
| 99    | <b>Bust Half Dollar</b> , 1808/7, O-101, Good+. A neat die variety that is quite noticeable.                                                                                                                                                                                                                                                                                                         | 100.00+       |
| 100   | <b>Bust Half Dollar</b> , 1814, <b>PCGS</b> Ch. XF-45, O-104a. This is a more difficult date in the series and is well struck with no motto weakness. Deep natural toning of gray/gold.                                                                                                                                                                                                              | 650.00        |
| 101   | <b>Bust Half Dollar</b> , 1819/18, O-101 with small 9, Fine. Natural two tone gray toning we like to see, however, the reverse shows an area of cleaning by the 50¢ denomination.                                                                                                                                                                                                                    | 115.00        |
| 102   | <b>Bust Half Dollar</b> , 1820, O-103, small dated, curled base 2. A nice VF with attractive patina, but the coin has been cleaned some time in the past.                                                                                                                                                                                                                                            | 150.00        |
| 103   | <b>Bust Half Dollar</b> , 1821, <b>PCGS</b> AU-50. A very nice earlier date with underlying luster and light gold toning at the borders. The strike is strong on the motto and shield.                                                                                                                                                                                                               | 600.00        |
| 104   | <b>Bust Half Dollar</b> , 1826, VF-20, O-111. A pleasing mid-grade example.                                                                                                                                                                                                                                                                                                                          | 125.00        |
| 105   | <b>Bust Half Dollar</b> , 1831, Ch. AU-55. Deep obverse toning, lighter on the reverse with gold and blues and underlying luster.                                                                                                                                                                                                                                                                    | 375.00        |
| 106   | <b>Bust Half Dollar</b> , 1836. Overall an XF coin with very nice patina, but we notice a very small puncture mark at the "T" in United on the reverse. This was the last year for the lettered edge Bust Halves.                                                                                                                                                                                    | 100.00-130.00 |
| 107   | <b>Seated Liberty Half Dollar</b> , 1840, reverse of 1839 (small letters), <b>PCGS</b> VF-25. A great example of this early date with pleasing surfaces.                                                                                                                                                                                                                                             | 195.00        |
| 108   | <b>Seated Liberty Half Dollar</b> , 1853 arrows and rays, Ch. XF-45 with uniform medium gray/blue toning, somewhat darker on the reverse. A popular one year type Half.                                                                                                                                                                                                                              | 300.00        |
| 109   | <b>Seated Liberty Half Dollar</b> , 1854 with arrows, Ch. AU-55, lustrous. A very pleasing example of the Variety Three Seated Half. The obverse has some neat clash marks.                                                                                                                                                                                                                          | 350.00        |
| 110   | <b>Troubled Seated Liberty Half Lot</b> . Includes: 1854-O Good with graffiti; 1855-O VF holed; 1856 AG scratch and 1858-O AG/G. Four pieces.                                                                                                                                                                                                                                                        | 100.00        |
| 111   | <b>Seated Liberty Half Dollar</b> , 1859-S, <b>PCGS</b> XF-40. This coin has a very pleasing look with luster still apparent at the borders. The one thing you really notice is the large "S" mint mark (WB-104).                                                                                                                                                                                    | 370.00        |
| 112   | <b>Seated Liberty Half Dollar</b> , 1861-O, <b>PCGS</b> AU-50. This is the last Seated Liberty Half minted at New Orleans, production not starting again until the Barber Halves. A very popular date because of the Civil War connection. Current auction prices realized are around \$425 to \$587. To further confuse bidders, the Red Book lists this at \$900, with Coin World trends at \$375. | 450.00-550.00 |
| 113   | <b>Seated Liberty Half Dollar</b> , 1873 with arrows, Ch. AU-55, lustrous. This is the Fifth Variety of the series and a great match for the 1854.                                                                                                                                                                                                                                                   | 475.00        |
| 114   | <b>Seated Liberty Half Dollar</b> , 1874 with arrows, AU-50 or better. Medium gray surfaces some will love and others may not.                                                                                                                                                                                                                                                                       | 425.00        |
| 115   | <b>Seated Liberty Half Dollar</b> , 1875-CC, <b>PCGS</b> Ch. XF-45. Very attractive with gold/gray surfaces and very natural looking. Current auction records are at the \$575 level. A very popular date in this series and rare this nice.                                                                                                                                                         | 575.00+       |
| ***** |                                                                                                                                                                                                                                                                                                                                                                                                      |               |
| 116   | <b>Seated Liberty Half Dollar</b> , 1887, AU-50 or better with deep violet/gold obverse toning, lighter on the reverse. With a mintage of only 5,000, this is a scarce date and very popular with collectors. When held at an angle in the light, one can see the gorgeous colors of this coin. A highlight of this auction and worth a strong bid.                                                  | 1,100.00      |
| ***** |                                                                                                                                                                                                                                                                                                                                                                                                      |               |
| 117   | <b>Barber Half Dollar</b> , 1894-O <b>PCGS</b> AU-50. A lustrous branch mint early Barber date and scarce this nice.                                                                                                                                                                                                                                                                                 | 500.00        |
| 118   | <b>Barber Half Dollars</b> , 1894-O and 1894-S. Both are Good. Two pieces.                                                                                                                                                                                                                                                                                                                           | 46.00         |
| 119   | <b>Barber Half Dollar</b> , 1900, <b>ANACS</b> Ch. XF-45. A nice upper mid-grade Barber.                                                                                                                                                                                                                                                                                                             | 250.00        |
| 120   | <b>Barber Half Dollar</b> , 1908, <b>PCGS</b> VF-20. A nice mid-grade certified example which we seldom see.                                                                                                                                                                                                                                                                                         | 125.00        |
| 121   | <b>Barber Half Dollar</b> , 1909, Ch. VF-30 with nice natural surfaces. A single old scratch is noted in the obverse field.                                                                                                                                                                                                                                                                          | 120.00        |
| 122   | <b>Barber Half Dollar</b> , 1915, Good to VG with a nice look. This is a key date.                                                                                                                                                                                                                                                                                                                   | 120.00        |

# MODERN HALF DOLLARS

ESTIMATE

- 123 **Early Walking Liberty Half Dollar Lot.** Includes: 1916 Good, cleaned; 1916-S Good; 1916-D AG/G; 1917 Good+; 1917-D obverse AG/G; 1917-S obverse polished AG/G. These are the first two years of issue for Weinman's popular series. The 1916-S is a scarce coin. 6 pieces. 185.00
- 124 **Walking Liberty Half Dollar, 1920, PCGS MS-63, fully lustrous.** An early date with the thumb visible. Genuinely rare this nice. 775.00
- 125 **Walking Liberty Half Dollar, 1921.** A nice VG example of this key date. 225.00
- 126 **Walking Liberty Half Dollars, 1921-S and 1923-S, Good cleaned and VG respectively.** Two pieces. 55.00
- 127 **Walking Liberty Half Dollar, 1938-D, Fine.** A key date. 90.00
- 128 **Walking Liberty Half Dollar, 1940-S, MS-62/63, lustrous.** 50.00
- 129 **Walking Liberty Half Dollar, 1940-S, PCGS MS-64 with nice uniform satiny luster.** 130.00
- 130 **Walking Liberty Half Dollar, 1944-D, MS-63, well struck and lustrous.** 70.00
- 131 **Walking Liberty Half Dollar, 1946-D, NGC MS-64, lustrous.** 75.00
- 132 **Franklin Half Dollars, 1949-D and 1949-S, Ch. AU-58 and MS-60 respectively.** A pair of key dates. 2 pcs. 80.00
- 133 **Franklin Half Dollar, 1953-S, PCGS MS-66 with uniform satiny surfaces.** PCGS has always graded the Franklin Half conservatively and it is hard to get this grade. 250.00
- 134 **Proof Franklin Half Dollars.** Includes (3) 1957, (2) 1959, (2) 1960, (4) 1961, (3) 1962 (4) 1963 and a lone 1964 Kennedy. These are all nice, at least Proof-65. 19 pieces. 415.00
- 135 **Franklin Half Dollar, 1960, PCGS MS-65FBL.** This summer we went through many BU Franklin Half rolls we had saved over the years looking for better material to submit to PCGS. People can have their current opinions about the state of grading, but when it comes to Franklin Halves, PCGS is tough! This is one of the few better results and scarce this nice with full bell lines. 200.00
- 136 **Franklin Half Dollar, 1962-D, PCGS MS-64FBL, lustrous and untoned.** 70.00
- 137 **Franklin Half Dollar, 1963, PCGS MS-64FBL, lustrous.** This is the scarcest of the late date Franklins to find with full bell lines. A tough coin. 415.00
- 138 **BU Half Dollar Rolls.** All are the traditional 20 coin rolls except where noted. Includes: 1961, 1961-D (19 pcs.), 1962-D (14 pcs.), 1966, 1967 and 1982-D, which is a tougher date. A fun mix of nice material to salt way, especially with silver so low. 113 pieces. 1,205.00
- 139 **Kennedy Half Dollar, 1998-S, PCGS MS-68SMS.** These matte finish halves were only available in a two piece set issued in 1998. The Half from these sets is quite noticeable because the finish is very different from BU or Proof Halves. PCGS currently lists this at... 155.00

# EARLY DOLLARS

\*\*\*\*\*

- 140 **Proof Seated Liberty Dollar, 1864, PCGS Proof-61.** Just traces of toning on mostly brilliant surfaces. Only 470 were struck during this Civil War year. We have always loved Proof Seated Dollars, especially the early ones with no motto (1864 being the last year of this type). This coin has excellent eye appeal with very clean surfaces other than a few wispy hairlines. 3,150.00

\*\*\*\*\*

- 141 **Trade Dollar, 1873-CC, ANACS Cleaned VF-25 details.** This is the first year for CC Trade Dollars. Only 124,500 were minted making this the scarcest of all CC Trade Dollars. A neat historic coin. 600.00-700.00

# MORGAN DOLLARS

- 142 **Morgan Dollar, 1878 8TF, PCGS MS-64.** This is the earliest Morgan Dollar variety with lustrous surfaces. 525.00
- 143 **Morgan Dollar, 1878, 7/8 TF, PCGS MS-64, weak variety.** There are many different versions of the seven over eight tail feather dollars. The weak variety displays the tips of 3 feathers protruding out from under the dominant seven feathers. Brilliant and well struck. 250.00+
- 144 **Morgan Dollar, 1879-CC, Fine, cleaned.** This is the interesting capped CC variety. 100.00-160.00

# MORGAN DOLLARS, CONT.

ESTIMATE

|     |                                                                                                                                                                                                                                                                                                                                                                                                      |                 |
|-----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|
| 145 | <b>Morgan Dollars</b> , 1879-O and 1880-O. Both are XF and are a nicely matched pair. Two pieces.                                                                                                                                                                                                                                                                                                    | 81.00           |
| 146 | <b>Morgan Dollar</b> , 1880/9-S, <b>PCGS</b> MS-66, VAM-11 0/9 overdate. As the grade indicates, this is an immaculate Dollar with beautiful satiny surfaces. The overdate is mostly recognized by die polishing marks appearing in the "0" of the date. Van Allan has a great picture of this in his book. <b>PCGS</b> also lists this a one of the "Hot 50" Morgan varieties.                      | 475.00          |
| 147 | <b>Morgan Dollar</b> , 1880-CC, <b>PCGS</b> MS-63, 8/7 tail feathers, reverse of '78. Although not stated by <b>PCGS</b> , this is VAM-7 which is a more common variety than Vam's 4-6 listed in the Top 100. Brilliant and fully struck. The reverse of 1878 is more scarce than the reverse of 1879.                                                                                               | 725.00          |
| 148 | <b>Morgan Dollar</b> , 1881, <b>PCGS</b> MS-65. The cheek on this coin is virtually mark-free and the over all look is of a higher grade. Fully struck and attractive. A tough coin in this grade.                                                                                                                                                                                                   | 700.00          |
| 149 | <b>Morgan Dollar</b> , 1881-O, <b>PCGS</b> MS-64, lustrous.                                                                                                                                                                                                                                                                                                                                          | 190.00          |
| 150 | <b>Morgan Dollar</b> , 1882, <b>PCGS</b> MS-65. Another Gem Dollar with great satiny surfaces.                                                                                                                                                                                                                                                                                                       | 475.00          |
| 151 | <b>Morgan Dollar</b> , 1882-CC, <b>PCGS</b> MS-65. A touch of gold on the obverse over clean surfaces.                                                                                                                                                                                                                                                                                               | 525.00          |
| 152 | <b>Morgan Dollar</b> , 1882-S, <b>PCGS</b> MS-64. Although not mentioned by <b>PCGS</b> , the coin exhibits nice mirrors on both sides and we wonder why there is no proof-like designation.                                                                                                                                                                                                         | 80.00+          |
| 153 | <b>Morgan Dollars</b> , 1882-S and 1883, <b>ANACS</b> MS-64 and <b>ICG</b> MS-63 respectively. We saved these two Dollars for this auction because of their toning. The 1882-S has deep blue/russet toning mostly at the edges while the 1883 has gorgeous gold/green/blue on the reverse border. We are also including a beautifully toned 1985 <b>Mexico 1 troy ounce Libertad</b> . Three pieces. | 180.00+         |
| 154 | <b>Morgan Dollar</b> , 1883, <b>PCGS</b> MS-66. Amazing surfaces with a cameo affect on the reverse. Fully struck with brilliant surfaces.                                                                                                                                                                                                                                                           | 550.00          |
| 155 | <b>Morgan Dollar</b> , 1883-CC, <b>PCGS</b> MS-65. An untuned satiny gem that is very well struck which is typical for this CC date.                                                                                                                                                                                                                                                                 | 500.00          |
| 156 | <b>Morgan Dollars</b> , 1885-O and 1888. These Dollars were certified by National Numismatic Certification, a non-recognized third party grading service as MS-64 and MS-65 respectively. We grade them as MS-64 and MS-63 respectively. The 1885-O has a clean obverse cheek and is very attractive. 2 pcs.                                                                                         | 145.00          |
| 157 | <b>Morgan Dollar</b> , 1885-S, <b>PCGS</b> MS-62, lustrous. A tougher dated in mint state.                                                                                                                                                                                                                                                                                                           | 300.00          |
| 158 | <b>Morgan Dollar</b> , 1886, <b>PCGS</b> MS-66. A wonderful coin as one would expect for the grade. We note some neat die cracks along with just a touch of gold toning.                                                                                                                                                                                                                             | 350.00          |
| 159 | <b>Morgan Dollar</b> , 1887, <b>PCGS</b> MS-66. Brilliant with great eye appeal.                                                                                                                                                                                                                                                                                                                     | 300.00          |
| 160 | <b>Morgan Dollar Half Roll</b> , 1887. Most of these grade MS-63 and some have attractive light gold toning. A nice group to salt away. 10 pieces.                                                                                                                                                                                                                                                   | 550.00          |
| 161 | <b>Morgan Dollar</b> , 1887-O, <b>PCGS</b> MS-63, untuned.                                                                                                                                                                                                                                                                                                                                           | 150.00          |
| 162 | <b>Morgan Dollar</b> , 1888-O, <b>PCGS</b> MS-65. This is a tougher date in higher mint state grades. Brilliant.                                                                                                                                                                                                                                                                                     | 575.00          |
| 163 | <b>Morgan Dollar</b> , 1888-O, <b>PCGS</b> VF-35, doubled die obverse. This is the famous VAM-4 "Hot Lips" variety with obvious doubling on the lips and nose.                                                                                                                                                                                                                                       | 225.00          |
| 164 | <b>Morgan Dollar</b> , 1888-S, <b>PCGS</b> MS-62, the obverse proof-like.                                                                                                                                                                                                                                                                                                                            | 400.00          |
| 165 | <b>Morgan Dollars</b> , 1890-CC and 1891-CC. Both are AG/G and are problem-free other than wear. Two pcs.                                                                                                                                                                                                                                                                                            | 125.00          |
| 166 | <b>Morgan Dollar</b> , 1892, <b>PCGS</b> MS-62, untuned. A scarce date in mint state.                                                                                                                                                                                                                                                                                                                | 400.00          |
| 167 | <b>Morgan Dollars</b> , 1892 and 1892-O. XF/AU and Fine respectively. Two pieces.                                                                                                                                                                                                                                                                                                                    | 80.00           |
| 168 | <b>Morgan Dollar</b> , 1894, <b>PCGS</b> Genuine, cleaned, AU details. Although cleaned at one time, the coin has nice natural toning at the borders and has a pleasing overall look to it. This is one of the key dates in the Morgan Dollar series and lists in only Good grade at \$700.                                                                                                          | 900.00-1,000.00 |
| 169 | <b>Morgan Dollar</b> , 1894-O. A strong Ch. AU coin but we believe the surfaces are a bit bright reflecting a possible cleaning. A more difficult date.                                                                                                                                                                                                                                              | 150.00-175.00   |
| 170 | <b>Morgan Dollar</b> , 1894-S, <b>PCGS</b> MS-62. We are coming to the end of several 1894-S Dollars we had certified several years ago. Fully lustrous with the reverse grading MS-64 to MS-65. A great upper level example for a key Morgan Dollar and worth a strong bid.                                                                                                                         | 1,075.00        |
| 171 | <b>Morgan Dollars</b> , 1895-O. Overall a VG-Fine example with natural surfaces, however there is some damage to the coin at 2:00 obverse which upon close examination looks like a deep planchet lamination and to us is quite interesting. Rare.                                                                                                                                                   | 170.00-200.00   |
| 172 | <b>Morgan Dollar</b> , 1896, <b>PCGS</b> MS-66. Another great high grade gem. Brilliant.                                                                                                                                                                                                                                                                                                             | 465.00          |
| 173 | <b>Morgan Dollar</b> , 1898-O, <b>PCGS</b> MS-66, brilliant. As the grade indicates, the surfaces are immaculate.                                                                                                                                                                                                                                                                                    | 300.00          |

| 174   | <b>Morgan Dollar</b> , 1899-O, MS-62/63, brilliant.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | 55.00     |
| 175   | <b>Morgan Dollar</b> , 1900-S, PCGS MS-62, light gold overtones. A tough date.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | 365.00    |
| ***** |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |           |
| 176   | <b>Morgan Dollar</b> , 1901, ANACS XF-45, VAM-3, doubled die reverse. This is the popular and very rare die variety known as the “shifted eagle” with all seven of the tail feathers doubled with a similar look to the 1878 7/8 strong variety. We have never offered this die variety in higher circulated grade before. Michael Fey states “Because of the dramatic variety features, its popularity is a classic Red Book variety, and its rarity, the VAM-3 is on everyone’s ‘Top Ten’ list.” This example has attractive blue/gold at the rims. The only “fault” we can find are some scattered circulation marks. A rare opportunity. | 1,800.00+ |
| ***** |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |           |
| 177   | <b>Morgan Dollar</b> , 1902-S, PCGS MS-62, lustrous. Another difficult date S Mint Morgan.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | 525.00    |
| 178   | <b>Morgan Dollar</b> , 1903, PCGS MS-64, brilliant.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | 125.00    |
| 179   | <b>Morgan Dollars</b> , 1903 and 1904. AU and XF respectively. Two pieces.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | 92.00     |
| 180   | <b>Morgan Dollar</b> , 1903-S, PCGS VF-25, Micro S, CAC certified. Another rare Top 100 variety. Fey states that “This particular small “S” is unique to one Morgan Dollar die in 1903, and is thought to have been intended only for use on Barber Quarters. This variety has become highly popular. Only one mint state specimen is known, which places heavy demand on AU-58 certified coins.” PCGS lists an AU-58 at \$24,500!                                                                                                                                                                                                           | 600.00    |
| 181   | <b>Morgan Dollar</b> , 1904, PCGS MS-64. With MS-65 examples listing at \$2,250, there is a great demand for this grade. Brilliant and very nice for the grade.                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | 575.00    |
| 182   | <b>Morgan Dollar</b> , 1904-O, MS-63+ with attractive gold/blue peripheral toning.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | 60.00     |

# PEACE DOLLARS

|     |                                                                                                                                                                                                                                                                                                                                                                                                                                           |        |
|-----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|
| 183 | <b>Peace Dollar</b> , 1921, Fine, one mark on the cheek is noted. a key date in the Peace Dollar series and essentially a one year only type coin because of the “deep dish” or medallion look with high relief.                                                                                                                                                                                                                          | 100.00 |
| 184 | <b>Peace Dollars</b> , 1924 and 1925, MS-64 and MS-62 respectively. Two pieces.                                                                                                                                                                                                                                                                                                                                                           | 93.00  |
| 185 | <b>Peace Dollar</b> , 1924-S, PCGS MS-62. A better date in the series.                                                                                                                                                                                                                                                                                                                                                                    | 300.00 |
| 186 | <b>Peace Dollar</b> , 1925-S, PCGS MS-63 with uniform satiny luster.                                                                                                                                                                                                                                                                                                                                                                      | 250.00 |
| 187 | <b>Peace Dollars</b> , 1926-S. Both are PCGS genuine uncirculated details but one has scratches and the other a “wheel mark.” We submitted these coins from a BU roll fully expecting an MS-63 on each or better! We found the scratch; very thin and only visible through a loupe above the eagle’s head. However, we have no idea what they mean by a wheel mark and find nothing on the coin. A lustrous, attractive pair. Two pieces. | 110.00 |
| 188 | <b>Peace Dollar</b> , 1927, PCGS MS-61, untoned.                                                                                                                                                                                                                                                                                                                                                                                          | 95.00  |
| 189 | <b>Peace Dollars</b> , 1927-S and 1928-S. Both are AU-50, the reverse of the 1928-S with some toning. 2 pcs.                                                                                                                                                                                                                                                                                                                              | 150.00 |
| 190 | <b>Peace Dollar</b> , 1934-D, PCGS MS-62, lustrous.                                                                                                                                                                                                                                                                                                                                                                                       | 215.00 |
| 191 | <b>Peace Dollars</b> , 1935 and 1935-S. Ch. XF and AU respectively. The reverse of the 1935-S has some staining. This is the last year for the traditional Silver Dollars. Two pieces.                                                                                                                                                                                                                                                    | 95.00  |

# SILVER EAGLES

|     |                                                                                                                                                                                                                                                                                                                                                                                     |         |
|-----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------|
| 192 | <b>Silver Eagle Set</b> . Contains all the regular business strikes from 1986 to 2014 plus the “W” Mint “burnished” issues for 2007 and 2008. We also note a proof 2006-W that is included. An attractive set housed in a Littleton album with several pieces starting to nicely tone. The key 1996 is nice with none of the white spotting we often see for this issue. 32 pieces. | 750.00+ |
| 193 | <b>Silver Eagles</b> , 2011, ANACS MS-70 “25 <sup>th</sup> Anniversary Silver Eagle First Day of Issue.” The slabs are housed in beautiful wood cases with boxes. Two pieces.                                                                                                                                                                                                       | 120.00  |
| 194 | <b>Silver Eagle BU Roll</b> , 2013 in the original tube. 20 pieces.                                                                                                                                                                                                                                                                                                                 | 420.00  |

# UNITED STATES GOLD COINS

ESTIMATE

- 195 **\$1 Type I**, 1853, **PCGS** genuine, damage, AU details. The “damage” referred to are some field marks visible only under power, and the overall look is quite nice. 190.00
- 196 **\$1 Type III**, 1888, **ANACS** Ch. AU-58. A great example of this scarce (15,501 minted) and second to last year of production. This currently lists in *Coin World* at \$450. 420.00-450.00
- 197 **\$2.50 Liberty**, 1903, **NGC** Ch. AU-55. A pretty jewel. 340.00
- \*\*\*\*\*
- 198 **\$3 Indian Princess**, 1857, **PCGS** Genuine cleaned, AU details. A nice looking coin with the light cleaning not readily apparent. As is true for most issues of this series, this had a very low mintage of only 20,891. Luster is still visible in the devices. Rare. 1,000.00-1,200.00
- \*\*\*\*\*
- 199 **\$5 Liberty**, 1852, **PCGS** AU-53, lustrous. Ex our auction March 1999. This is a very pleasing example of a “No Motto” Half Eagle. **PCGS** currently values this at \$700. 700.00
- 200 **\$5 Liberty**, 1880. A nice AU-50 example. 460.00
- 201 **\$10 Liberty**, 1881, Ch. XF-45. 740.00
- \*\*\*\*\*
- 202 **\$10 Liberty**, 1893, **PCGS** MS-63+. We seldom see **PCGS** use the plus designation for gold. Nice uniform luster with no spotting. **PCGS** currently lists this at \$1,130. 1,130.00
- 203 **\$20 Gold Liberty**, 1851 type I, **PCGS** XF-40. We have always liked the early Double Eagles and have watched them become a very popular series over the last 10 years. This example has nice color and no spotting, but it does exhibit many bag/circulation marks and we note a rim bump at 1:00. 2,500.00
- \*\*\*\*\*
- 204 **\$20 Gold Liberty**, 1904, **PCGS** MS-62. This is an extremely lustrous example which is very close to MS-63. 1,600.00
- 205 **\$20 Gold St. Gaudens**, 1924, **PCGS** old holder, Ch. AU-58. 1475.00

# MODERN U.S. GOLD COINS

- 206 **\$5 1/10 Oz. Gold Eagle**, 2003, **ICG** MS-70. **PCGS** lists these at \$300. What is an **ICG** example worth? 200.00+
- 207 **\$25 1/2 Oz. Gold Eagle**, 1987, Proof, in the original case with all of the paperwork. This was the first year for the 1/2 oz. Eagle proofs with only business strikes minted in 1986. 690.00
- 208 **\$25 1/2 Oz. Gold Eagle**, 2003, **ICG** MS-70. Again, **PCGS** lists this grade at \$1,035. 800.00+
- \*\*\*\*\*
- 209 **Gold Eagle Year Set**, 2010. A beautiful set of **NGC** MS-70 graded 1/10, 1/4, 1/2 and 1 troy ounce gold Eagles housed in a special presentation case. The original owner paid \$4,964 for this set in December 2010! Currently, these list for \$3,750 on the **NGC** website. 3,750.00
- 210 **\$100 American Liberty High Relief 1 Oz. Gold**, 2015-W. This is the second contemporary high relief coin issued (see page 379 of the current Redbook) and features a new rendition of Liberty holding a torch and American flag. Only 49,325 uncirculated coins were struck at West Point, less than half of the 2009 issue. Housed in original packaging. 1,735.00
- \*\*\*\*\*

# 1/10TH OZ. SILVER BULLION

- 211 **APMEX 1/10 ounce silver “coins.”** Each is struck with the Mercury Dime design on both sides and are very cute. You can view these on their website. They currently offer them at around \$3 each depending on quantity. 300 pieces. 900.00

# U.S. COMMEMORATIVE COINS

ESTIMATE

- 212 **Early Commemorative Halves.** Includes: 1892 and 1893 Columbian Exposition, XF and AU respectively and a 1923 XF/AU Monroe Doctrine. Three pieces. 77.00
- 213 **Ft. Vancouver Centennial Comm. Half,** 1925, Ch. AU-55, lustrous. Only 14,994 were minted making this one of the scarcer issues. Laura Fraser did the art work depicting a pioneer settler holding a musket on the reverse. 310.00
- 214 **Arkansas Comm. Half Dollar Set,** 1935. Each of these is MS-63 or better. The sets include one example from each mint (P-D-S) and are quite scarce with only 5,505 struck at Denver and 5,506 struck at San Francisco. An Indian Chief and girl were portrayed on the obverse. These were struck to commemorate Arkansas' centennial. Three pieces. 340.00
- 215 **Oregon Trial Comm. Half,** 1936, **PCGS** MS-64. An extremely lustrous and attractive example of this beautiful coin of which only 10,006 were minted. 200.00
- 216 **Texas Independence Centennial Comm. Half,** 1936-D, MS-60 with light golden toning. A busy design with Austin, Houston and the Alamo all depicted on the reverse. Rare, with only 9,039 issued. 135.00
- 217 **BU Olympic \$10 Gold,** 1984-W. Housed in a card stating that this is the "Official U.S. Olympic Coin Holder," serial number 12437. We see the proofs often in their original cases but we seldom see the BUs with original packaging. Only 75,886 were issued. This was the first \$10 gold coin issued since 1933, and the first coin to bear the West Point mint mark. 700.00
- 218 **Olympic \$5 Gold,** 1988, BU. Only 61,913 were minted as opposed to 281,465 Proofs. This is one of mint engraver Elizabeth Jones more popular pieces. All original packaging. 350.00
- 219 **Congressional 3 pc BU Set,** 1989. Includes the \$5 Gold, Silver Dollar and clad Half Dollar. 46,899 BU sets were produced. Original packaging. 385.00
- 220 **Columbus 2 pc. Proof Set,** 1992. This set contains the clad Half Dollar and Silver Dollar with Columbus on the obverse of both. Also included is the 1992 **White House** Proof Dollar. All original packaging. 65.00
- 221 **Veterans Proof Silver Dollars Set,** 1994. This popular three coin set includes the Vietnam Veterans Memorial, Prisoner of War Museum and Women in Military Services Memorial. Original packaging. 129.00
- 222 **Robert F. Kennedy Proof Silver Dollar,** 1998-S. Original packaging. 58.00
- 223 **Yellowstone 2 pc. Silver Dollar Set,** 1999. Includes both BU and Proof Dollars. Original packaging. 82.00
- 224 **Lincoln Bicentennial Silver Dollars,** 2009, Proof and BU examples graded Proof-70 and MS-70 respectively by ANACS. The holders state first day of issue and are housed in custom wood cases. 2 pcs. 140.00

# U.S. CURRENCY

- 225 **\$10 National Bank Note,** 1902, F-VF, plain Bank. **The Farmers Deposit National Bank of Pittsburgh, Pennsylvania.** We found a similar example in Fine, but with rust stains that sold in a Heritage auction in May, 2006 for \$110. This example is nicer. 150.00
- \*\*\*\*\*
- 226 **\$50 Gold Certificate,** 1922, **PMG** AU-50, FR #1200 Large serial number, Spellman/White. This is an extremely impressive rare note. The last of the large size Gold Certificates issued before the smaller size was adopted for the 1928 series. We have never listed this before and it is the first note of this type we have seen. The traditional portrait of Grant is on the front along with gold seal and serial numbers. The reverse is printed entirely in gold and features an ornate design. 3,000.00+
- \*\*\*\*\*
- 227 **(3) \$1 Silver Certificates,** 1928A, CU-63 to 65. Wonderful uncirculated examples of the popular "funny back" certificates that are sequentially numbered. Three pieces. 200.00-250.00
- 228 **(2) \$10 Silver Certificates,** 1953, CU-63 to 65. These sequentially numbered certificates are rather scarce in uncirculated condition. Two pieces. 250.00+
- 229 **(7) \$50 Federal Reserve Notes,** 1990. All of these are CU-65 or better and are sequentially numbered. This is the old style small portrait note from the San Francisco Federal Reserve Bank. Seven pieces. 525.00
- 230 **\$100 Federal Reserve Note,** 1928, Fine to VF, Philadelphia F.R.B. This is the first series for the small size FRNs. 160.00-175.00

## U.S. PROOF & MINT SETS

ESTIMATE

|     |                                                                                                                                                                                                                                                                                                                                                                                                             |        |
|-----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|
| 231 | <b>Proof Set</b> , 1956. A very nice set with a cameo on the reverse of the Half and obverse of the Quarter. Original packaging.                                                                                                                                                                                                                                                                            | 65.00  |
| 232 | <b>Proof Set</b> , 1958. Another nice set with original packaging. The last year the mintage was under a million.                                                                                                                                                                                                                                                                                           | 32.00  |
| 233 | <b>Proof Sets</b> , 1980 and 1996. Five sets each in the original unopened mailing boxes. 10 sets.                                                                                                                                                                                                                                                                                                          | 65.00  |
| 234 | <b>Proof Sets</b> , 2003 regular and silver sets. The state quarters this year were from Illinois, Alabama, Maine, Missouri and Arkansas. Two sets.                                                                                                                                                                                                                                                         | 45.00  |
| 235 | <b>Proof Sets</b> , 2009 regular and silver sets. These sets each contain four boards: Cent to Half, minus Quarters, Territorial Quarters, Presidential Dollars and commemorative Lincoln Cents. A neat year for Proof Set purchasers. Original packaging. Two sets.                                                                                                                                        | 73.00  |
| 236 | <b>Prestige Proof Sets</b> , 1986 and 1990. As the years pass, fewer people remember these sets which added the year's commemorative coins to the normal Proof Set. They were discontinued in 1997. The 1986 had the Statue of Liberty Dollar and Half Dollar while the 1990 had the Eisenhower Silver Dollar. Two sets.                                                                                    | 55.00  |
| 237 | <b>Mint Sets</b> , 1968, 1969 and 1970. The last years of the 40% silver Half Dollars. The only way one could get a 1970 dated Half was either in the Proof Set or the Mint Set. Three Sets.                                                                                                                                                                                                                | 35.00  |
| 238 | <b>Mint Sets</b> , 1973 to 1978 inclusive. This Mint Set run covers all the years Eisenhower Dollars were included in the Mint Sets. Original packaging. 6 sets.                                                                                                                                                                                                                                            | 51.00  |
| 239 | <b>Proof and Mint Set Hoard</b> . Proof Sets include: (5) 1960, 1962, 1963 and 1964. We note some spotting on the 1962, otherwise these are very nice sets in the original pliofilm but missing the envelopes. Mint Sets include: 1961, (3)1964, 1979, (2) 1980, 1981, and 1987. The 1961 had all of its original packaging, the balance of the sets in the original pliofilm minus the envelopes. 17 sets. | 340.00 |

## MISCELLANEOUS U.S. COIN LOTS

|     |                                                                                                                                                                                                                                                                                                   |        |
|-----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|
| 240 | <b>PCGS Certified Coin Lot</b> . Includes: 1954 Cent MS-66RD; 1997-S Cent PR-70DCAM; 1954 Nickel MS-64, and 1954-S Nickel MS-66. The 1997-S Cent currently lists on PCGS for \$110 and the 1954 Cent at \$100. The 1954-S Nickel lists at \$125. There is some very nice material here. 4 pieces. | 346.00 |
| 241 | <b>Certified Half Dollar Lot</b> . PCGS coins include: 1970-S PR-65DCAM; 1973-S PR-69DCAM; 1996-S Silver PR-69DCAM. Also included is an NGC 2012-S Silver Early Release. 4 pieces.                                                                                                                | 168.00 |

## ALASKA TOKENS & MEDALS

ESTIMATE

|     |                                                                                                                                                                                                                                                                                   |         |
|-----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------|
| 242 | <b>Alaska tokens, Alakanuk</b> : Alstrom Trading Co., set of 6 tokens; 25¢, 50¢, \$1, \$5, \$10 and \$20, B-1, a-f. All are nice AU except the 25¢ which is XF but bent. Alstrom also issued tokens at Kwiguk. 6 pcs.                                                             | 85.00   |
| 243 | <b>Alaska tokens, Juneau</b> : Imperial Cigar Store 6¼¢, B-29a, and Imperial Pool Parlor 5¢, B-30a. Both are AU and show original luster. 2 pieces                                                                                                                                | 40.00   |
| 244 | <b>Alaska tokens, Kwiguk</b> : Alstrom. A set of 6 tokens; 25¢, 50¢, \$1, \$5, triangular \$10 and red fiber \$10, B-1, a-f. The three lower denominations are in wretched condition as usual. A village in the Yukon delta, now known as Emmonak. Set of 6 tokens.               | 85.00   |
| 245 | <b>Alaska tokens, Mountain Village</b> : Sheppard Trading Company, set of 6 tokens; 25¢, 50¢, \$1, \$5, \$10 and \$20, B-1 a-f, all XF or better.                                                                                                                                 | 90.00   |
| 246 | <b>Alaska tokens, Nome</b> : Polet Stores, set of 4 fiber tokens; 5¢, 10¢, 25¢ and \$1, B-41, b, d, f, and i. All near mint state. 4 pieces.                                                                                                                                      | 45.00   |
| 247 | <b>Alaska tokens, Noorvik</b> : Noorvik Cooperative Store, set of 6 tokens; 5¢, 10¢, 25¢, 50¢, \$1 and \$5, B-1, a-f. All XF or better except the \$5 which is Fine or better. 6 pieces.                                                                                          | 100.00  |
| 248 | <b>Alaska token, Valdez</b> : (Copper Block) Buffet, 12½¢ in trade, B-4b, VF, a bit rough. "Native Copper from Valdez, Alaska" with harbor scene. One of the most popular tokens.                                                                                                 | 40.00   |
| 249 | <b>"Wings of Iditarod 1987,"</b> 1 oz. silver bar. A plane on skis is depicted, and the legend "Alaska Bush Pilots." The "1049 Club," Mile (serial number) 0120. This is the second earliest Iditarod medal or bar that we know of. We have seen these offered on eBay for \$150. | 100.00+ |

# ALASKA MEDALS & ALASKANA

ESTIMATE

\*\*\*\*\*

250 **Nyac, Alaska 1 oz. Gold Medal**, 1976. The obverse has a map of Alaska showing the location of Nyac and the legend "Sourdough Centennial, 1976." The reverse has a nice view of a bucket line on a gold dredge with metal statement. Not bright and shiny, it has a matte finish. This is #94 of 1,000 (it is unlikely that that many were minted). It includes the original paperwork signed by the company president. More than 40 years old, we just don't see these very often. 1,800.00

\*\*\*\*\*

- 251 **State of Alaska 1/10 oz. Gold Medal**, 1989. This was the first year for the State's medal program. Unlike today, the designs for the silver and gold medals were different with an Inupiaq and Big Dipper depicted on the obverse. Only 217 were minted and it is very rare to see them. This is a very nice example. 250.00
- 252 **State of Alaska 1/20 oz. Gold Medal**, 2005. This year depicted the Sitka deer on the obverse and only 80 were minted! Original packaging. 125.00
- 253 **Alaska Railroad 1 oz. Silver Medal**, 1992. This series started in 1990 and these early issues are not easy to find. 1,500 were struck in 1992 of which this is #750. An older diesel engine is depicted. 100.00
- 254 **Alaska Railroad 1 oz. Silver Medal**, 1998. The mintage for this year climbed to 2,500 probably because the obverse depicted a old engine circa 1920. 75.00
- 255 **Iditarod Silver 1 oz. Medals**, 1999 and 2000. This popular series started in 1989. For both 1999 and 2000, the mintages were limited to 3,000 for each year. Includes original packaging. Two pieces. 150.00
- 256 **University of Alaska Rifle Team 1 oz. Silver Medal**, 2000. After UAF's National Championship, 200 silver medals were created of which 100 were numbered, this being #82. A rifle along with UAF's logo is on the obverse along with the years National Championships were achieved with the seal of the University on the reverse. A scarce medal housed in original packaging. 50.00+
- 257 **Pioneers of Alaska, 1 oz. silver medals**. The Pioneers of Alaska have annual conventions, and recently they have been issuing 1 oz. silver medals. All have the logo of the PofA on the reverse - a pioneer pulling a sled. We offer the 2003 (Kenai/Homer), 2004 (Juneau) and 2006 (Palmer) medals here. The 2003 has no metal statement, but the other two are edge marked. These have received an epoxy coating on both sides to protect them for jewelry use, giving them a golden tone. 3 pieces. 75.00
- 258 **Anchorage 1 oz. Silver Medal**. An Alaska Mint medal featuring the Anchorage skyline on the obverse and the state seal on the reverse. These retail for around \$80. 50.00
- 259 **Iditarod Sled Dog Race Buttons**. Included are: (6) 1981, (6) 1982, (9) 1983, (5) 1984, (5) 1985 and (1) 1989. Also included are (2) Iditarod Nome, Alaska buttons, no date. 34 buttons total. 150.00+
- 260 **Yukon Quest International Sled Dog Race Pins & Buttons**. Pins include: 1986, (2) 1987, 1989, 1990, (3) 1991, (3) 1992, 1994 and (1) undated Yukon Quest. Buttons include: 1984 (first year, very scarce) 1985, 1991, (4) 1992, 1999, 2002 and undated "Yukon Quest International Sled Dog Race. 20 items. 150.00+
- 261 **Fairbanks Outboard Association Yukon 800 Marathon Pins**. We rarely see these. Included here are (2) 1987, (1) 1990 and (2) 1995. This is a riverboat race from Fairbanks to Galena and back. 5 pins. 50.00+
- 262 **Fairbanks Sterling Silver Spoon**. Great riverfront scene. If you put it next to a photo, you could identify the businesses! The back of the handle has a mining scene, gold pan, pick and shovel and miner in a parka. Really, it doesn't get any better than this. .68 troy ounces ASW. 100.00
- 263 **Alaska, America's Last Frontier**, small base metal tray, 125mm by 85mm. Flowers around the edge, dog team in the center. Well used, and wear is apparent. This would be a "nothing" item, but for the marking on the back; "Made in Occupied Japan" which dates it to 1945 to 1952. Highly collectible across many areas of collecting. 25.00+
- 264 **Alaska Book: Klondyke Souvenir** published by H.J. Goetzman, Dawson, Y.T., 1901. Unpaginated, 90 pages, all photos, about 11.75 inches by 9 inches.. A great documentation of Dawson City and the surrounding gold fields. This copy is in nice condition. The spine is splitting at top and bottom but not as bad as it sounds. There are some stray pencil markings. 225.00

## ALASKANA, CONT.

ESTIMATE

- 265 **Alaska Book: *From the Top of the World to You, KFAR***, 1939, large 14 inches by 11 inches. 64 pages of photos, maps and charts. Much about Fairbanks, mining, transportation and more. Information on gold copper, tin and platinum and other mining. This is one of the coolest publications I have seen. The photos are supplemented with drawings by T.R. Lambert and Eustace P. Ziegler. Now the bad news. The cover is detached, corners of pages are bent. But none of this affects the contents, some of which is suitable for framing. 25.00+
- 266 **Alaska Travel Brochure**, by the Northern Pacific Railway. This is really a neat brochure with great black and white photos on nearly every page. It is undated (perhaps 1930s), but when printed, Ketchikan was Alaska's largest city with a population of 6,000! Excellent condition but for a small tear and crease on the back cover. 35.00
- 267 **Arctic Circle Certificate**. Certifies that the recipient has crossed the Arctic Circle on Wien Alaska Airlines, 1947 and landed at Pt. Barrow, Alaska. The pilot was William H. Smith, and witnesses were Sig Wien and Robert G. Shelton. Predominantly printed in green and dark blue on white paper. Framed, about 15 3/4" by 12 5/8" but no glass. We have seen more modern certificates, but this is the earliest. Flying across the Arctic Circle is common place now, not so much in the 1940s! Period artwork adds to the appeal. 75.00+
- 268 **Alaska Book: *Reaching for a Star, the Final Campaign for Alaska Statehood*** by Gerald E. Bowkett, 1989. Inscribed by the author to Lael Morgan (well known Alaska author), and by the late Senator Ted Stevens. Excellent condition. A neat piece of Alaska history. 50.00
- 269 **Alaska Books/Fairbanks Author**: Two children's books by Fairbanks author Jo Anne Wold: *Tell them my name is Amanda* and *Well! Why didn't you say so?* Until these came in with a collection, we had never heard of them. Jo Anne Wold is best known for the book *This Old House*, and we will throw in a copy of that also! Three books all signed. 60.00+

## MISCELLANEOUS

- 270 **President Carter Official Inaugural Medals**. Amazingly this silver and bronze set has the original packaging and customer receipt. The silver medal has 6.423 troy ounces of silver and a low serial number (135) while the bronze is number 968. We are also including a privately minted two piece silver set for the 2000 Presidential Election depicting Bush on one side and Gore on the other! Each medal has 4 troy ounces of silver with one being gold plated. Inaugural/Political medals are a fascinating part of numismatics. This lot has 14.423 troy ounce of silver total. Four medals. 288.00+
- 271 **Library of Coins Albums**. We offer here (9) different albums: Buffalo Nickels; Mercury Head Dimes; (3) Liberty Head Silver Dollars, 1878-1921; Peace Type Silver Dollar; and (3) U.S. Commemorative Coins, complete collection. Also, (2) **Wayte Raymond "Popular Album"** for Liberty Head Dimes 1892-1916 and Liberty Head Quarters, 1892-1904. Both have a puncture on the front cover from removing coins. Also included is a Quarter page for a Meghriq loose leaf album. Finally, (5) **Misc. Old Folders**, including Dansco Coin and Currency Institute and Whiteman. 11 albums, 5 folders. 90.00+
- 272 **Capital Plastics Holders**. Before "slabbing," this was the way to go - 3 piece plastic holder that could hold a single coin or a set. We offer an odd assortment. Included are: Lincoln Cents, 1909-1940 (12" x 10"); Eisenhower Dollars, 12 holes (6" x 8"); U.S. Mint Sets, 3 x 5 holes (5" x 6"); U.S. Silver Dollars, 100 years (3" x 4.5"); U.S. Gold Type Set, 4 holes, (2" x 6"); U.S. Gold Type Set, 16 holes (5" x 6"); and Gold Coins of Mexico, 6 holes (3.5" x 6"). All are used with light scuffing, one with a scratch on the plastic. New retail value in excess of \$150. 7 holders. 50.00+
- 273 **Gold Coin Bracelet**. This unusual item has three 1/10 oz. gold Eagles set in rather ornate bezels separated by four colored stones set in smaller bezels. The bracelet itself is 14kt. The whole bracelet weighs just about 1 troy ounce and is quite attractive. New, this would retail for about \$2,000. 1,400.00-1,600.00
- 274 **Black Hills Gold Cross**. Measuring 1 1/2" by 7/8", it is made from both 10kt and 12kt gold with the typical multi-colors. Very attractive. The total weight is .064 troy ounces and it would retail for about \$160. 100.00
- 275 **Surprise Package**: Ah, yes! The psychology of the Surprise Package bidder. Some bid because they can't stand to see anyone else possibly get a good deal. Some love living on the edge and gambling away their children's inheritance. Others do not bid out of fear they may pay too much and feel foolish. Some just want to impress other bidders. We just want to get rich and make Alaska Rare Coins great again. Yes, all of life could be summed up in the psychology of one lot - Go for it! ???.??
